E. Possession and Distribution of Fish

1. **SHIPPING:** It shall be unlawful for any person to ship or cause to be shipped or transported out of this State any game fish taken from the waters of Utah hereby declared open to angling. However, a legal limit of game fish may accompany a bona fide angling license holder as he leaves the State.

2. POSSESSION:

a. Possession and transportation of live tropical and goldfish species will be permitted for exhibition and commercial purposes other than for use as live bait. Possession and transportation of live salamanders is permitted.

b. It shall be unlawful for any company, corporation, partnership, or individual EXCEPT licensed hatchery and/or private pond operators and valid fishing license holders, to have in his possession any species of game fish unless they are accompanied by a receipt which specifies the number, species, and pounds, of fish in his possession and the

name and place where fish were obtained, with an appropriate signature from the source.

3. POSSESSION AND/OR TRANSPORTING OF LIVE FISH:

a. No person **EXCEPT** Utah licensed hatchery and/or private pond operators, or Utah licensed seiners, or bait dealers engaged in the business of transporting live game fish or live bait fish and amphibians, including salamanders, within the State of Utah, may, at any time, hold or have in his possession (except as provided in Section E 3b) any species of live fish, **EXCEPT** as specified in Item E 2 of the proclamation or with special permission from the Utah State Division of Wildlife Resources. This means possession of live salamanders is permitted and is legal bait.

b. Fishermen may use a live box at Lake Powell to hold a legal bag limit or portion thereof of game fish; provided that each individual fisherman using such live box must provide name, address, and fishing license number displayed indelibly or in a waterproof fashion on the live box holding the

fish. If more than one fisherman participates with one live box, each fisherman must provide his identification as mentioned above. Fish held in such a manner will be considered a portion or whole of the anglers limit as identified on the live box.

c. None of the above sections shall preclude the use of fish stringers as part of normal angling procedures. However, this does not permit the transportation of live fish from waters from which they are taken.

4. **STOCKING:** No person, partnership, company, corporation, or Governmental agency may place into any of the waters of the State of Utah any species of fish without first obtaining permission from the Utah State Division of Wildlife Resources.

fish were taken. It is unlawful to transport fish on a donation certificate across state lines.

6. **TRESPASS:** Any person entering upon privately owned land of any other person, firm, or corporation which is properly posted, without permission from the owner or person in charge, is guilty of a misdemeanor.

Any person who upon request of the owner or person in charge of private land shall refuse to immediately leave such private land, whether posted or not, is guilty of a misdemeanor.

Any person who without the owner's permission shall obstruct any entrance or exit to private property is guilty of a misdemeanor. The minimum fine shall be \$50.

Any person convicted of violating any of the provisions of this section shall have his or her license, certificate, or permit revoked by the Wildlife Board and may not obtain another license, certificate or permit until a period of one year shall elapse from the date of revocation.

Reservoir. A person having in possession a valid Utah fishing license must have in his possession a Wyoming fishing stamp (\$2.00) to fish in the Wyoming portion of Flaming Gorge Reservoir.

II. Any nonresident of Utah not having in possession a valid Wyoming fishing license, and who would be required by Utah Law to purchase a nonresident Utah fishing license to fish Utah waters, in order to be entitled to fish the Utah part of Flaming Gorge Reservoir, will be required to purchase an appropriate nonresident Utah fishing license. Conversely, any nonresident of Wyoming not having in possession a valid Utah fishing license, and who would be required by Wyoming Law to purchase a nonresident Wyoming fishing license to fish Wyoming waters, in order to be entitled to fish the Wyoming part of the Flaming Gorge Reservoir, will be required to purchase an appropriate nonresident Wyoming fishing license.

The fishing stamps, when accompanied by a proper license (in those situations where a license is required) will allow fishing in any portion of said waters as described and limited above, and will permit fishermen to enter the described waters from any point. The fishing stamps of either state must be signed across the face thereof by the person in possession thereof in the same manner as his name appears on either the Wyoming fishing license or the Utah fishing license

which he holds (in those situations where a license is required).

V. This agreement shall govern only the waters of the Flaming Gorge Reservoir lying below the elevation of 6,040 feet, which is the maximum impoundment elevation of said reservoir. When the surface elevation of the reservoir is below 6,040 feet, the streams tributary to said reservoir may be fished as part of the waters of the reservoir up to said elevation of 6,040 feet, and all such streams will be clearly marked at such elevation by the respective Commission and Board.

VI. It is agreed that only one daily limit of fish may be taken from the reservoir by any one holder of a valid fishing license from either or both of the states of Utah and Wyoming, all to the end that a person will not be permitted to buy both a Utah license and a Wyoming license for the purpose of taking a daily limit of fish in the Wyoming part of the reservoir and a second daily limit of fish on the same day in the Utah part of the reservoir.

VII. Juvenile Licensing and Creel Limits:

under twelve (12) years of age, are not required to have a license or stamp to fish any part of the reservoir. The creel limit shall be four (4) trout or salmon, not to include more than two (2) lake trout or four (4) game fish of any other species.

b. Utah and Wyoming nonresident juveniles, under twelve (12) years of age, are not required to have a license or a stamp to fish any part of the reservoir. However, they must be accompanied by a licensed angler and their creel limit included as part of the creel limit of the accompanying licensed angler.

c. Wyoming resident juveniles, 12 and 13 years of age, are not required to purchase a license to fish any part of the reservoir. However, a Utah stamp is required to fish in Utah. The creel limit shall be the same as for adults.

d. Utah resident juveniles, 12 and 13 years of age, must have a Utah license to fish in Utah. Only a Wyoming stamp is required to fish in Wyoming. The creel limit shall be the same as for adults.

VIII. No line may have more than three (3) hooks or flies in series or more than one lure. This section shall be interpreted as meaning that the ordinary bass plug, or flat-fish or spinner, etc., is legal so long as it does not bear more than three (3) treble hooks. A gaff or landing net may be used in landing fish already caught by lawful means.

LAKE POWELL AGREEMENT —PERTINENT STIPULATIONS

I. Any person possessing a valid Arizona license may fish in the waters of Lake Powell within Arizona without a Utah stamp, and any person possessing a valid Utah license may fish in the waters of Lake Powell within Utah without an Arizona stamp.

II. Any person qualifying as an Arizona resident having in his possession a valid Arizona fishing license, excluding the Arizona-Lake Powell license, and a Utah \$3.00 stamp,

III. Any Arizona nonresident with a valid Arizona nonresident fishing license, excluding the Arizona Lake Powell license, and a Utah \$4.00 stamp, shall be permitted to fish within the Utah boundaries of Lake Powell.

IV. Any person qualifying as a Utah resident having in his possession a valid Utah fishing license and a \$1.00 Arizona stamp shall be permitted to fish within the Arizona boundaries of Lake Powell.

V. Any Utah nonresident fisherman having a valid Utah nonresident fishing license and a \$2.00 Arizona stamp shall be permitted to fish within the Arizona boundaries of Lake Powell.

Arizona resident or nonresident, under the age of 14, may fish during the open season without a license and shall be entitled to one-half ($1/2$) a bag and possession limit of trout and a full bag and possession limit of all other game fish.

VII. Any person properly licensed pursuant to the regulations set forth above, may fish in any and all waters of Lake Powell and may enter said waters from any point. The fishing stamps of either state must be signed across the face by the holder thereof in the same manner as his name appears on the fishing license of either state.

VIII. It is further agreed that each state shall permit only one daily limit of fish per licensed fisherman and no person shall be permitted to take a daily limit of fish under the regulations of both states in one day.

IX. This agreement shall be applicable to bank fishermen as well as all other fishermen.
