Highlights of the 2002 Fishing Proclamation

1 Four Trout Limit: Anglers should enjoy more consistent trout fishing after the Utah Wildlife Board voted to lower the trout limit to 4 trout daily at waters throughout Utah. The lower limit will provide more consistent fishing by spreading trout out over a longer period of time. While the sale of Utah fishing licenses has leveled off over the past few years, Utah's anglers are fishing more than ever, logging 5.9 million angler days in 2000. That's the highest number of days anglers have ever spent fishing in Utah. The Division is still stocking 10 million fish each year and most of our major trout fishing waters currently have a 4-trout limit, so reducing the limit on the remaining waters will simplify the regulation by making it consistent statewide.

Among the exceptions to the 4-trout limit are the Uinta Mountains, where anglers can have up to 8 trout (as long as at least 4 of them are brook trout), and Flaming Gorge Reservoir, where current trout limits will remain in effect until an agreement to lower the trout limit can be reached with Wyoming.

The Board wanted to keep the trout limit for children under 14 years-of-age at its current 4 trout daily limit, but a state law that says the limit for children who don't buy a license must be half of the adult limit will require that the children's limit be reduced to 2 trout daily. However, the Division will work with the Legislature to change the law.

2 Dead yellow perch may be used as bait only in: Deer Creek, Fish Lake, Echo, Gunnison, Hyrum, Johnson, Jordanelle, Newton, Pineview, Rockport, Sevier Bridge (Yuba), Utah Lake, and Willard Bay reservoirs.

3 Anglers will be allowed to keep 6 wipers at **Willard Bay Reservoir**. The Board increased the limit to try and reduce pressure on the reservoir's gizzard shad forage base, which has declined the past two years.

4 The smallmouth bass limit at Lake Powell is now 20 fish, while the largemouth bass limit is 5 fish, and the crappie limit is 10 fish. Taking more smallmouth bass will reduce competition for food, and should increase the size of smallmouth bass in the lake. Largemouth bass and crappie populations in the lake have declined as the lake has gotten older and brushy habitat has declined. Reducing the limit on these fish will provide more consistent fishing by spreading them out over a longer period of time.

5 The limit on a small stretch of the Weber River is 2 trout, with only artificial flies and lures allowed. The stretch is from the first I-80 bridge, upstream from Echo Reservoir, to the I-80 bridge, near Wanship. Lowering the limit, and reducing the loss of fish that are caught and released by going to an artificial fly and lure restriction, should provide anglers with good, consistent fishing.

6 Johnson, Newton and Pineview reservoirs: It is unlawful to use whole fish or amphibians, including water dogs, for bait. Cut bait must not be larger than one inch in any dimension and no more than one piece per hook. (See definitions of single hook, page 5.)

7 Big Cottonwood Creek (from the Mill B turnoff just below the "S" curves to the Cardiff Flatt Bridge at Mill D South Fork) Trout limit 4, but only two may be brown trout. All brown trout over 12 inches must be immediately released.

8 PRIVATE LANDS: While taking wildlife or engaging in wildlife related activities, a person may not, without the written permission of the owner or person in charge, enter upon privately owned land that is cultivated or properly posted. "Cultivated land" means land which is readily identifiable as: 1) land whose soil is loosened or broken up for the raising of crops; 2) land used for the raising of crops; or 3) pasturage which is artificially irrigated. The DWR cannot guarantee access to any private land. If you plan to fish in an area that is made up of all or mostly private lands, you must also obtain WRITTEN permission from the landowner or person in charge.

9 Individual waters: Some waters have special provisions for angling and boating. Be sure to check Section V. PROVISIONS FOR SPECIFIC WATERS on page 11.

License Suspension

The Utah Division of Wildlife Resources has the authority to suspend hunting and fishing privileges for wildlife violations if the Division deems that the violation was committed knowingly, intentionally or recklessly. Any person who is convicted of, pleads guilty to, no contest to, or enters a plea in abeyance to, a wildlife violation may be subject to administrative suspension. Notification of such action is generally served only after criminal proceedings have been concluded. Any Utah order of suspension may be recognized in other states participating in the Wildlife Violator Compact.

WILDLIFE BOARD MEMBERS

- Max G. Morgan—Chair
- Coni Brooks
- Brenda Freeman
- Paul Niemeyer
- John Kimball—DWR Director, Executive Secretary
- Richard Diamond
- Jim Bowns
- Allan Smith

The Division of Wildlife Resources is funded by the sale of fishing and hunting licenses and through federal aid made possible through an excise tax on the sale of fishing- and hunting-related equipment.

Equal Opportunity Employer

The Utah Division of Wildlife Resources receives Federal financial assistance from the U.S. Fish and Wildlife Service. Under Title VI of the Civil rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, the U.S. Department of the Interior and its bureaus prohibit discrimination on the basis of race, color, national origin, age, disability or sex (in educational programs). If you believe that you have been discriminated against in any program, activity or facility, or if you desire further information please write to: The U.S. Fish and Wildlife Service, Office for Diversity and Civil Rights Programs-External Programs, 4040 North Fairfax Drive, Suite 130, Arlington, VA 22203.

STATE OF UTAH
DIVISION OF WILDLIFE RESOURCES
PROCLAMATION OF THE WILDLIFE BOARD FOR
FISH AND CRAYFISH
2002

I. Purpose and Authority

R657-13-1

(1) Under authority of Sections 23-14-18 and 23-14-19, the Wildlife Board has established this proclamation for taking fish and crayfish.

(2) Specific dates, areas, methods of take, requirements and other administrative details which may change annually are published herein.

(3) This proclamation expires December 31, 2002, unless modified or rescinded by the Wildlife Board or the director of the Division of Wildlife Resources.

II. Definitions

23-13-2 & R657-13-2

(1) "Aggregate" means the combined total of two or more species of fish or two or more size classes of fish which are covered by a limit distinction (i.e., trout and salmon in the aggregate).

(2) "Angling" means fishing with a rod, pole, tip-up, handline or troll board that has a single line with legal hooks, baits or lures attached to it, and is held in the hands of, or within sight of (not to exceed 100 feet), the person fishing.

(3)(a) "Artificial fly" means a fly made by the method known as fly tying.

(b) "Artificial fly" does not mean a weighted jig, lure, spinner, attractor blade or bait.

(4) "Artificial lure" means a device made of rubber, wood, metal, glass, fiber, feathers, hair or plastic with a hook or hooks attached. Artificial lures (including artificial flies) do not include fish eggs or other chemically treated or processed natural baits or any natural or human-made food, or any lures that have been treated with a natural or artificial fish attractant or feeding stimulant.

(5) "Bag limit" means the maximum limit, in number or amount, of protected wildlife that one person may legally take during one day.

(6) "Bait" means a digestible substance, including worms, cheese, salmon eggs, marshmallows or manufactured baits including human-made items that are chemically treated with food stuffs, chemical fish attractants or feeding stimulants. Legal baits are described in Section III.B.7. Bait.

(7) "Chumming" means dislodging or depositing in the water any substance not attached to a hook, line or trap, which may attract fish.

(8)(a) "Domicile" means the place:

(i) where an individual has a fixed permanent home and principal establishment;

(ii) to which the individual if absent, intends to return; and

(iii) in which the individual and the individual's family voluntarily reside, not for a special or temporary purpose, but with the intention of making a permanent home.

(b) To create a new domicile an individual must:

(i) abandon the old domicile; and

(ii) be able to prove that a new domicile has been established.

(9) "Fishing" means to take fish or crayfish by any means.

(10) "Fishing contest" means any organized event or gathering where anglers are awarded prizes, points or money for their catch.

(11) "Float tube" means an inflatable floating device less than 48 inches in any dimension, capable of supporting one person.

(12) "Gaff" means a spear or hook, with or without a handle, used for holding or lifting fish.

(13) "Game fish" means Bonneville cisco; bluegill; bullhead; channel catfish; crappie; green sunfish; largemouth bass; northern pike; Sacramento perch; smallmouth bass; striped bass, trout (rainbow, albino, cutthroat, brown, golden, brook, lake/mackinaw, kokanee salmon, and grayling or any hybrid of the foregoing); tiger muskellunge; walleye; white bass; whitefish; wiper; and yellow perch.

(14) "Handline" means a piece of line held in the hand and not attached to a pole used for taking fish or crayfish.

(15) "Immediately released" means that the fish should be quickly unhooked and released back into the water where caught. Fish that must be immediately released cannot be held on a stringer, or in a live well or any other container or restraining device.

(16) "Lake" means the standing water level existing at any time within a lake basin. Unless posted otherwise, a stream flowing inside or within the high water mark is not considered part of the lake.

(17) "Length measurement" means the greatest length between the tip of the head or snout and the tip of the caudal (tail) fin when the fin rays are squeezed together. Measurement is taken in a straight line and not over the curve of the body.

(18) "Motor" means an electric or internal combustion engine.

(19) "Nongame fish" means species of fish not listed as game fish. (See Section C. Prohibited Fish for prohibited nongame fish.)

(20) "Nonresident" means a person who does not qualify as a resident.

(21) "Possession" means actual or constructive possession.

(22) "Possession limit" means, for purposes of this proclamation only, one bag limit, including fish at home, in a cooler, camper, tent, freezer or any other place of storage.

(23) "Protected aquatic wildlife" means, for purposes of this proclamation only, all species of fish, crustaceans or amphibians.

(24) "Reservoir" means the standing water level existing at any time within a reservoir basin. Unless posted otherwise, a stream flowing inside or within the high water mark is not considered part of the reservoir.

(25)(a) "Resident" means a person who:

(i) has been domiciled in the state of Utah for six consecutive months immediately preceding the purchase of a license; and

(ii) does not claim residency for hunting, fishing, or trapping in any other state or country.

(b) A Utah resident retains Utah residency if that person leaves this state:

(i) to serve in the armed forces of the United States or for religious or educational purposes; and

(ii) complies with Subsection (a)(ii).

(c)(i) A member of the armed forces of the United States and dependents are residents for the purposes of this chapter as of the date the member reports for duty under assigned orders in the state if the member:

(A) is not on temporary duty in this state; and

(B) complies with Subsection (a)(ii).

(ii) A copy of the assignment orders must be presented to a wildlife Division office to verify the member's qualification as a resident.

(d) A nonresident attending an institution of higher learning in this state as a full-time student may qualify as a resident for purposes of this chapter if the person:

(i) has been present in this state for 60 consecutive days immediately preceding the purchase of the license; and (ii) complies with Subsection (a)(ii).

(e) A Utah resident license is invalid if a resident license for hunting, fishing or trapping is purchased in any other state or country.

(f) An absentee landowner paying property tax on land in Utah does not qualify as a resident.

(26) "Second pole" means fishing with one additional rod, pole, tip-up, handline or troll board that has a single line with legal hooks, bait or lures attached to it, and is held in the hands of, or within sight (not to exceed 100 feet) of the person fishing. (A valid fishing or combination license and second pole permit are required to use a second pole on selected waters).

(27) "Setline" means a line anchored to a non-moving object and not attached to a fishing pole.

(28) "Single hook" means a hook or multiple hooks having a common shank.

(29) "Snagging" or "gaffing" means to take a fish in a manner that the fish does not take the hook voluntarily into its mouth.

(30) "Take" means to:

(a) hunt, pursue, harass, catch, capture, possess, angle, seine, trap or kill any protected wildlife; or

(b) attempt any action referred to in Subsection (a).

(31) "Tributary" means a stream flowing into a larger stream, lake or reservoir.

(32)(a) "Trout" means species of the family Salmonidae, including rainbow, albino, cutthroat, brown, golden, brook, lake/mackinaw, kokanee salmon, and grayling or any hybrid of the foregoing.

(b) "Trout" does not include whitefish or Bonneville cisco.

(33) "Underwater spearfishing" means fishing by a person swimming or diving and using a mechanical device held in the hand which uses a rubber band, spring or pneumatic power to propel a spear to take fish.

(34) "Waste" means to abandon protected wildlife or to allow protected wildlife to spoil or to be used in a manner not normally associated with its beneficial use.

III. General Provisions

This section sets forth general provisions of statute and rule that apply to taking fish and crayfish. Exceptions to these provisions are provided in V. Provisions For Specific Waters beginning on page 11.

A. LICENSES, PERMITS AND STAMPS

1. License, Permit and Stamp Requirements 23-19-1

(1) A person may not engage in fishing or seining protected wildlife or in the sale, trade or barter of protected wildlife or their parts without first having procured the necessary licenses, Certificates of Registration, permits

and tags as provided under Title 23, Wildlife Resources Code, and having at the same time the licenses, Certificates of Registration, permits and tags on his or her person, except as provided in Section 3.

(2) A person may not lend, transfer, sell, give or assign licenses, Certificates of Registration, permits, or tags belonging to the person or the rights granted by licenses, Certificates of Registration, permits or tags or use or attempt to use a license, Certificate of Registration, permit or tag of another person.

2. Free Fishing Day 23-19-1 & R657-13-3

A license is not required on free fishing day, Saturday, June 8, 2002. All other laws and rules apply.

3. Fishing License—Season 23-19-18

(1) A person (resident or nonresident) 14 years of age or older may purchase a season (annual) fishing license.

(2) A person (resident or nonresident) under 14 years of age may:

(a) fish without a license and take one-half (½) a bag and possession limit; or

(b) purchase a license and take a full bag and possession limit.

4. Fishing License—Limited Number of Days 23-19-21

(1) A person (resident or nonresident) may purchase a license to fish:

(a) for one day; or

(b) for seven consecutive days.

(2) The effective dates shall be indicated on the license.

5. Nonresident One-Day Fishing Stamp R657-13-21

(1)(a) A nonresident may purchase a one-day fishing stamp to extend a one-day or seven-day fishing license provided the nonresident person has obtained a valid Utah nonresident one-day or seven-day fishing license.

(b) A nonresident must present the one-day or seven-day fishing license to the Division or license agent upon purchasing a one-day fishing stamp.

(2) A one-day fishing stamp will extend the one-day or seven-day fishing license within the current year for one additional day.

(3) The effective date shall be indicated on the one-day fishing stamp.

6. Fishing Contests R657-13-4

(1)(a) A certificate of registration from the Division is required for fishing contests:

(i) with 50 or more contestants; or

(ii) any fishing contest offering \$500 or more in prizes.

(b)(i) Application for certificates of registration are available from Division offices and must be submitted at least 60 days prior to the date of the fishing contest.

(ii) The Division may take public comment before issuing a certificate of registration if, in the opinion of the Division, the proposed fishing contest has potential impacts to the public or substantially impacts a public fishery.

(c) A certificate of registration may cover more than one fishing contest.

(d) The Division may deny issuing a certificate of registration or impose stipulations or conditions on the issuance of the certificate of regis-

tration in order to achieve a management objective, to adequately protect a fishery or to offset impacts on a fishery or heavy uses of other public resources.

(e) A report must be filed with the Division within 30 days after the fishing contest is held. The information required shall be listed on the certificate of registration.

(f)(i) Only one fishing contest may be held on a given water at any time. Each fishing contest is restricted to being held on only one water at a time.

(ii) Fishing contests may not be held on a holiday weekend, state or federal holiday, or free fishing day, except as provided in Subsection (g).

(g) A fishing contest may be held on free fishing day and a certificate of registration is not required if :

(i) contestants are limited to persons 13 years of age or younger; and

(ii) less than \$500 are offered in prizes.

(h) A copy of proposed fishing contest rules must be submitted with the application for a Certificate of Registration. The proposed rules must include the final schedule of entry fees, prizes, and pay-out amounts to contestants.

(2) Fishing contests conducted for cold water species of fish, such as trout, whitefish, and salmon may not be conducted:

(a) if the fishing contest offers \$500 or more in total prizes, or has more than 200 contestants, except on Flaming Gorge Reservoir and Echo Reservoir there is no limit to the amount that may be offered in prizes or the number of contestants;

(b) on those waters where the Wildlife Board has imposed special harvest rules, such as tackle restrictions, reduced limits, or size restrictions, or other exceptions to the general fishing regulations.

(i) The restrictions under Subsection (b) shall not apply to tournaments for non-salmonids if the non-salmonids are present in the same water.

(3) Contests for warm water species of fish shall be conducted as follows:

(a) all contests as provided in Subsection (1)(a) must be:

(i) authorized by the Division through the issuance of a certificate of registration; and

(ii) carried out consistent with any requirements imposed by the Division;

(b) Fish brought in to be weighed or measured may not be released within ½ -mile of a marina, boat ramp, or other weigh-in site and must be released back into suitable habitat for that species; and

(c) If tournament rules allow larger or smaller fish to be entered in the contest than the size allowed for possession under the proclamation of the Wildlife Board for taking fish and crayfish, the fish must be weighed or measured immediately and released where they were caught.

7. Interstate Waters

R657-13-5

(1) Lake Powell and Flaming Gorge Reservoir

(a) The purchase of a reciprocal fishing stamp allows a person to fish across state boundaries of interstate waters.

(b) Reciprocal fishing stamps are offered for Lake Powell and Flaming Gorge Reservoir.

(c) Any person qualifying as an Arizona resident having in their possession a valid resident Arizona fishing license and a Utah reciprocal fishing stamp for Lake Powell can fish within the Utah boundaries of Lake Powell.

(d) Any person possessing a valid Wyoming fishing license and a Utah reciprocal fishing stamp for Flaming Gorge is permitted to fish within the Utah waters of Flaming Gorge Reservoir.

(e) Utah residents may obtain reciprocal fishing stamps by contacting the state of Arizona for Lake Powell and the state of Wyoming for Flaming Gorge.

(f) Nonresidents may obtain reciprocal fishing stamps from Division offices and selected license agents.

(g) The reciprocal fishing stamp must be:

(i) used in conjunction with a valid unexpired fishing or combination license from a reciprocating state;

(ii) signed across the face by the holder as the holder's name appears on the valid unexpired fishing or combination license from the reciprocating state; and

(iii) attached to the fishing or combination license from the reciprocating state.

(h) Reciprocal fishing stamps are valid on a calendar year basis.

(i) Anglers are subject to the laws and rules of the state in which they are fishing.

(j) Only one bag limit may be taken and held in possession even if licensed in both states.

(2) Bear Lake

(a) The holder of a valid Utah or Idaho fishing or combination license may fish within both the Utah and Idaho boundaries of Bear Lake.

(b) Only one bag limit may be taken and held in possession even if licensed in both states. (See other Bear Lake provisions.)

8. Fees

Residents

Combination license (12 years of age or older)	\$32
Season (Annual) (*14 years of age and under 65 years of age)	\$24
65 years of age or older	\$14
*1-day (14 years of age or older)	\$7
*7-days (14 years of age or older)	\$15

Nonresidents

Season (Annual) (*14 years of age or older)	\$46
*1 day (14 years of age or older)	\$8

Reciprocal Fishing Stamp (Nonresidents Only)

Flaming Gorge Reservoir

(for use with Wyoming resident and nonresident license) \$10

Lake Powell

(for use with Arizona resident license) \$8

Setline Permit (Residents & Nonresidents)

For use with a valid unexpired Utah one day, seven day or season (annual) fishing or combination license. Anglers under 14 years of age must purchase a valid Utah one day, seven day or season (annual) fishing or combination license, and Setline Permit in order to use a setline.

Permits are available at Division offices only. \$14

Second Pole Permit (Residents & Nonresidents)

For use on selected waters with any valid unexpired Utah one day, seven day or season (annual) fishing or combination license. Anglers under 14 years of age must purchase a valid Utah one day, seven day or season (annual) fishing or combination license and second pole permit in order to use a second pole. \$14

9. Special Resident Licenses and Fees 23-19-36

(1) A resident who is blind, paraplegic or otherwise permanently disabled so as to be permanently confined to a wheelchair or the use of crutches, or who has lost either or both lower extremities, may receive a free license to fish upon furnishing satisfactory proof of this fact to the Division of Wildlife Resources.

(2) A resident who is a mentally retarded person and is not eligible under Section 23-19-14 to fish without a license may receive a free license to fish upon furnishing verification of mental retardation, as defined in Section 62A-5-101, from a physician.

(3) A resident who is terminally ill, and has less than five years to live, may receive a free license to fish:

(a) upon furnishing verification from a physician; and

(b) qualifies for assistance under any low income public assistance program administered by a state agency.

(4) A child placed in the custody of the state by a court order may receive a free fishing license upon furnishing verification of custody to the Division.

(5) Forms for special resident licenses and fees are available at Division offices.

10. Duplicate License 23-19-10

Whenever any unexpired license, permit, tag or Certificate of Registration is destroyed, lost or stolen, a person may obtain a duplicate from a Division office for \$5 or half the price of the original license, permit, tag or Certificate of Registration, whichever is less.

11. Sales of Licenses Final 23-19-38

(1) Sales of all licenses, certificates or permits are final, and no refunds may be made by the Division, except as provided in Subsection (2).

(2) The Division may refund the amount of the license, certificate or permit if:

(a) the Division or the Wildlife Board discontinues the activity for which the license, certificate or permit was obtained;

(b) the Division determines that it has erroneously collected a fee;

(c)(i) a person is not able to participate in a permitted activity due to illness or injury;

(ii) the person furnishes verification of illness or injury from a physician; and

(iii) the permit is surrendered before the season for which the permit was issued begins; or

(d) the person to whom the license, certificate or permit is issued dies prior to that person's being able to participate in the activity for which the license, certificate or permit was obtained.

12. Exhibit of License, Stamp and Wildlife 23-20-25

Any person while engaged in any activity regulated under the Wildlife Resources Code, shall be required upon demand of any conservation officer or any other peace officer to exhibit:

(1) the required license, permit or tag;

(2) any device or apparatus in that person's possession used for any activity regulated under the Wildlife Resources Code; or

(3) any wildlife in that person's possession.

B. FISHING METHODS

Game Fish May Be Taken Only by The Following Methods:

1. Angling R657-13-6

(1) While angling, the angler shall be within sight of (not to exceed 100 feet), the equipment being used at all times, except set lines.

(2) Angling with more than one line is unlawful, except when fishing for crayfish without the use of fish hooks and on selected waters with a valid Second Pole Permit (see FISHING WITH A SECOND POLE, Section III.B.2). A Second Pole Permit is not required when fishing for crayfish with lines without hooks.

(3) No artificial lure may have more than three hooks.

(4) A person may not use or possess hooks, single or multipoint, larger than 9/16 inch at the shortest point, between the shank and the point on specific waters as specified under Section V. PROVISIONS FOR SPECIFIC WATERS.

(5) No line may have attached to it more than two baited hooks, two artificial flies, or two artificial lures, except for a setline or while fishing at Flaming Gorge Reservoir.

(6) When angling through the ice, the hole may not exceed 12 inches across the widest point, except at Bear Lake, Flaming Gorge Reservoir and Fish Lake where specific limitations apply. (See V. PROVISIONS FOR SPECIFIC WATERS.)

2. Fishing with a Second Pole R657-13-7

(1) A person may use a second pole to take fish only in the following waters:

(a) Bear River from the Idaho state line downstream, including Cutler Reservoir and the outlet canals;

(b) D.M.A.D.;

(c) Flaming Gorge Reservoir;

(d) Gunlock Reservoir;

(e) Gunnison Bend;

(f) Hyrum Reservoir;

(g) Lake Powell;

(h) Little Bear River below Valley View Highway (SR-30);

(i) Malad River;

(j) Newton Reservoir;

(k) Pelican Lake;

(l) Pineview Reservoir;

(m) Starvation Reservoir;

(n) Utah Lake;

(o) Willard Bay Reservoir; and

(p) Yuba Reservoir.

(2)(a) A Second Pole Permit may be obtained for a \$14 fee at license agents and Division offices.

(b) A Second Pole Permit is required in addition to a valid Utah one day, seven day, or season (annual) fishing or combination license.

(c) A Second Pole Permit is an annual permit, but may only be used in conjunction with an unexpired Utah one day, seven day or season (annual) fishing or combination license.

(3) Anglers under 14 years of age must purchase a valid Utah fishing or combination license and Second Pole Permit in order to use a second pole.

(4) A Second Pole Permit shall only be used by the person to whom the Second Pole Permit was issued.

3. Setline Fishing R657-13-8

(1) A person may use a setline to take fish only in the Bear River proper downstream from the Idaho state line, including Cutler Reservoir and outlet canals; Little Bear River below Valley View Highway (SR-30); Malad River; and Utah Lake.

(2)(a) Angling with one pole is permitted while setline fishing, except as provided in Subsection (b).

(b) A person who obtains a Second Pole Permit may fish with two poles while setline fishing.

(3) No more than one setline per angler may be used and it may not contain more than 15 hooks.

(4)(a) A Setline Permit may be obtained for a \$14 fee at any Division office.

(b) A Setline Permit is required in addition to a valid Utah one day, seven day or season (annual) fishing or combination license.

(c) A Setline Permit is an annual permit, but may only be used in conjunction with an unexpired Utah one day, seven day or season (annual) fishing or combination license.

(5) When fishing with a setline, the angler shall be within 100 yards of the surface or bank of the water being fished.

(6) A setline shall have one end attached to a nonmoving object, not attached to a fishing pole, and shall have attached a legible tag with the name, address and setline permit number of the angler.

(7) Anglers under 14 years of age must purchase a valid Utah one day, seven day or season (annual) fishing or combination license and setline permit in order to use a setline.

4. Underwater Spearfishing R657-13-9

(1) Underwater spearfishing is permitted from official sunrise to official sunset.

(2) Use of artificial light is unlawful while underwater spearfishing.

(3) Causey Reservoir, Deer Creek Reservoir, Fish Lake, Flaming Gorge Reservoir, Joe's Valley Reservoir, Ken's Lake, Lost Creek, Red Fleet Reservoir, Steinaker Reservoir, Starvation Reservoir, and Willard Bay Reservoir are open to taking game fish by means of underwater spearfishing from June 1 through September 30, 2001. These are the only waters open to underwater spearfishing for game fish.

(4) The bag and possession limit is two game fish. No more than one fish greater than 20 inches may be taken, except at Flaming Gorge Reservoir. At Flaming Gorge Reservoir only one lake trout (mackinaw) greater than 28 inches may be taken. (See V. PROVISIONS FOR SPECIFIC WATERS.)

(5) Nongame fish may be taken by spearfishing only in the waters listed in Subsection (3) above and as provided in Section III.D. TAKING NONGAME FISH.

5. Dipnetting R657-13-10

(1) Hand-held dipnets may be used to take Bonneville cisco only at Bear Lake. (See V. PROVISIONS FOR SPECIFIC WATERS.)

(2) The opening of the dipnet may not exceed 18 inches.

(3) When dipnetting through the ice, the size of the hole is unrestricted.

6. Restrictions on Taking Fish and Crayfish R657-13-11

(1) Artificial light is permitted, except when underwater spearfishing.

(2) A person may not obstruct a waterway, use any chemical, explosive, electricity, poison, crossbow, firearm, pellet gun or archery equipment, except as provided in Section III.D. TAKING NONGAME FISH, to take fish or crayfish.

(3) A person may not take protected aquatic wildlife by snagging or gaffing; however, a gaff may be used to land fish caught by lawful means, except at Flaming Gorge Reservoir and Fish Lake.

(4) Chumming is prohibited on all waters except Lake Powell where dead anchovies ONLY may be used for taking striped bass (SEE SPECIAL PROVISIONS FOR LAKE POWELL).

(5) The use of a float tube or a boat, with or without a motor, for fishing is unlawful on some waters. (See V. PROVISIONS FOR SPECIFIC WATERS.) Boaters should be aware that other agencies may have additional restrictions on the use of float tubes, boats or boats with motors on some waters.

(6) Nongame fish and crayfish may be taken only as provided in Section III.D. TAKING NONGAME FISH, and Section III.E. TAKING CRAYFISH.

7. Bait R657-13-12

(1)(a) Fishing is permitted with any bait, except corn, hominy or live fish.

(b) Possession or use of corn or hominy while fishing is unlawful.

(2) Use or possession of any bait while fishing on waters designated artificial fly and lure only is unlawful.

(3) Game fish or their parts may not be used, except for the following:

(a) Dead Bonneville cisco may be used as bait only in Bear Lake.

(b) Dead yellow perch may be used as bait only in: Deer Creek, Fish Lake, Echo, Gunnison, Hyrum, Johnson, Jordanelle, Newton, Pineview, Rockport, Sevier Bridge (Yuba), Utah Lake, and Willard Bay reservoirs.

(c) Dead white bass may be used as bait only in Utah Lake.

(d) The eggs of any species of fish, except prohibited fish, may be used. However, eggs may not be taken or used from fish that are being released.

(4) Use of live crayfish for bait is legal only on the water where the crayfish is captured. It is unlawful to transport live crayfish away from the water where captured.

(5) Manufactured, human-made items that may not be digestible (e.g. rubber worms, plastic baits, sponge, etc.) that are chemically treated with food stuffs, chemical fish attractants, or feeding stimulants may not be used on waters where bait is prohibited.

C. PROHIBITED FISH R657-13-13

(1) The following species of nongame fish are classified as prohibited and may not be taken or held in possession:

(a) Bonytail chub (*Gila elegans*)

(b) Bluehead sucker (*Catostomus discobolus*)

(c) Colorado pikeminnow (formerly, Colorado squawfish) (*Ptychocheilus lucius*)

(d) Flannelmouth sucker (*Catostomus latipinnis*)

(e) Gizzard shad (*Dorosoma cepedianum*)

(f) Grass carp (*Ctenopharyngodon idella*)

(g) Humpback chub (*Gila cypha*)

(h) June sucker (*Chasmistes liorus*)

(i) Least chub (*Lotichthys phlegethontis*)

(j) Leatherside chub (*Gila copei*)

(k) Razorback sucker (*Xyrauchen texanus*)

(l) Roundtail chub (*Gila robusta*)

(m) Virgin River chub (*Gila robusta seminuda*)

(n) Virgin spinedace (*Lepidomeda mollispinis*)

(o) Woundfin (*Plagopterus argentissimus*)

(2) Any of these species taken while attempting to take other legal species shall be immediately released.

D. TAKING NONGAME FISH

R657-13-14

(1)(a) Except as provided in Subsections (b) and (c), a person possessing a valid Utah fishing or combination license may take nongame fish for personal, noncommercial purposes during the open fishing season set for the given body of water.

(b) A person may not take any species of fish designated as prohibited in Section III.C. PROHIBITED FISH.

(c) Nongame fish may not be taken in the following waters, except carp may be taken by angling, archery (excluding crossbows), spear or underwater spearfishing:

- (i) San Juan River;
- (ii) Colorado River;
- (iii) Green River (from confluence with Colorado River upstream to Colorado state line in Dinosaur National Monument);
- (iv) Green River (from Colorado state line in Brown's Park upstream to Flaming Gorge Dam, including Gorge Creek, a tributary entering the Green River at Little Hole);
- (v) White River (Uintah County);
- (vi) Duchesne River (from Myton SR-40 bridge) to confluence with Green River;
- (vii) Virgin River (Main stem, North and East Forks).
- (viii) Ash Creek;
- (ix) Beaver Dam Wash;
- (x) Fort Pierce Wash;
- (xi) La Verkin Creek;
- (xii) Santa Clara River (Pine Valley Reservoir downstream to the confluence with the Virgin River);
- (xiii) Diamond Fork;
- (xiv) Thistle Creek;
- (xv) Main Canyon Creek (tributary to Wallsburg Creek);
- (xvi) South Fork of Provo River (below Deer Creek Dam); and
- (xvii) Snake Valley waters (west and north of US-6 and that part of US-6 and US-50 in Millard and Juab counties).

(2) Nongame fish, EXCEPT those species listed in III.C. PROHIBITED FISH, may be taken by spear or underwater spearfishing in the waters specified in Section III.B.4(3) UNDERWATER SPEARFISHING, angling, traps, bow and arrow, liftnets or seine.

(3) Seines shall not exceed 10 feet in length or width.

(4) Lawfully taken nongame fish shall be either released or killed immediately upon removing them from the water; however, they may not be abandoned on the shoreline.

E. TAKING CRAYFISH

R657-13-15

(1) A person possessing a valid Utah fishing or combination license may take crayfish for personal, noncommercial purposes during the open fishing season set for the given body of water.

(2) Crayfish may be taken by hand or with a trap, liftnet, handline, pole or seine, provided that:

(a) game fish or their parts, or any substance unlawful for angling, is not used for bait;

(b) seines shall not exceed 10 feet in length or width;

(c) no more than five lines are used, and no more than one line may have hooks attached (bait is tied to the line so that the crayfish grasps the bait with its claw); and

(d) live crayfish are not transported from the body of water where taken.

F. POSSESSION AND TRANSPORTATION

1. Dead Fish and Crayfish

R657-13-16 & 4-37-305

(1) Fish held in possession in the field or in transit shall be kept in such a manner that:

- (a) the species of fish can be readily identified;
- (b) the number of fish can be readily counted;
- (c) the size of the fish can be readily measured when the fish are taken from waters where size limits apply and the fish taken from those waters may not be filleted and the heads or tails may not be removed; and
- (d) fillets shall have attached sufficient skin to include the conspicuous markings so species may be identified.

(2) A legal limit of game fish or crayfish may accompany the holder of a valid fishing or combination license within Utah or when leaving Utah.

(3) A person may possess or transport a legal limit of game fish or crayfish for another person when accompanied by a donation letter. (See Section III.H.1. DONATING.)

(4) A person may not take more than one bag limit in any one day or possess more than one bag limit of each species or species aggregate regardless of the number of days spent fishing.

(5) A person may possess or transport dead fish on a receipt from a registered commercial fee fishing installation, a private pond owner, or a short-term fishing event. This receipt shall specify:

- (a) species and number of fish;
- (b) date caught;
- (c) the Certificate of Registration number of the installation, pond or short-term fishing event; and
- (d) the name, address and telephone number of the seller.

2. Live Fish and Crayfish

R657-13-17

(1) A person may not possess or transport live protected aquatic wildlife except as provided by the Wildlife Code or the rules and proclamation of the Wildlife Board.

(2) For purposes of this proclamation, a person may not transport live fish or crayfish away from the water where taken.

(3) This does not preclude the use of live fish stringers, live wells, or hold type cages as part of normal angling procedures while on the same water in which the fish or crayfish are taken.

3. Release of Aquatic Wildlife Unlawful

23-13-14

A person may not release any terrestrial or aquatic wildlife into the wild except as provided in the Wildlife Code. Any person who violates the provisions of this section is guilty of a class A misdemeanor.

4. Release of Tagged or Marked Fish

R657-13-18

Without prior authorization from the Division, a person may not:

- (1) tag, mark or fin-clip fish for the purpose of offering a prize or reward as part of a contest;
- (2) introduce a tagged, marked or fin-clipped fish into the water; or
- (3) tag, mark or fin-clip a fish and return it to the water.

G. ADMINISTRATIVE CHECK POINTS

The Division monitors the taking and possession of wildlife, the required licenses, permits, tags and Certificates of Registration, and firearms, devices and equipment used for taking wildlife. Anglers should expect to encounter conservation officers checking people in the field, at checking stations and check points.

These contacts allow the Division to collect valuable information concerning wildlife populations and trends as well as helping to fulfill the Division's responsibility as trustee and custodian of wildlife.

H. DISPOSAL OF AQUATIC WILDLIFE

23-20-9

1. Donating

- (1) A person may donate protected wildlife or their parts to another person only at the following places:
 - (a) the residence of the donor;
 - (b) the residence of the person receiving protected wildlife or their parts;
 - (c) a meat locker;
 - (d) storage plant; or
 - (e) a meat processing facility.
- (2) A written statement of donation must be kept with the protected wildlife or parts showing:
 - (a) the number and species of protected wildlife or parts donated;
 - (b) the date of donation;
 - (c) the license or permit number of the donor; and
 - (d) the signature of the donor.

2. Purchasing or Selling

23-20-3

Except as otherwise provided in the Wildlife Code, rule, proclamation, or order of the Wildlife Board, a person may not purchase or sell protected aquatic wildlife or their parts.

3. Wasting

23-20-8

It is unlawful to waste or permit to be wasted or spoiled any protected wildlife or any part of them.

I. AIDING AND ASSISTING

23-20-23

It is unlawful for any person to aid or assist any other person to violate any provision of the Wildlife Resources Code or rule promulgated under it.

J. TRIBAL TRUST LANDS

Sportsmen must observe tribal regulations concerning wildlife while on Tribal Trust lands.

K. TRESPASS

23-20-14

- (1) While taking wildlife or engaging in wildlife related activities, a person may not:
 - (a) without the permission of the owner or person in charge, enter upon privately owned land that is cultivated or properly posted;
 - (b) refuse to immediately leave the private land if requested to do so by the owner or person in charge; or
 - (c) obstruct any entrance or exit to private property.
- (2) "Cultivated Land" means land which is readily identifiable as:
 - (a) land whose soil is loosened or broken up for the raising of crops;
 - (b) land used for the raising of crops; or
 - (c) pasturage which is artificially irrigated.
- (3) "Permission" means written authorization from the owner or person in charge to enter upon private land that is properly posted, and must include:
 - (a) the signature of the owner or person in charge;
 - (b) the name of the person being given permission;
 - (c) the appropriate dates; and
 - (d) a general description of the property.
- (4) "Properly posted" means that "No Trespassing" signs or a minimum of 100 square inches of bright yellow or fluorescent paint are displayed at all corners, fishing streams crossing property lines, roads, gates and rights-of-way entering the land. If metal fence posts are used, the entire exterior side must be painted.
- (5) A person may not post:
 - (a) private property he does not own or legally control; or
 - (b) land that is open to the public as provided by Section 23-21-4.
- (6) A person convicted of violating any provision of Subsection (1) may have his license, tag, Certificate of Registration or permit relating to the activity engaged in at the time of the violation, revoked by a hearing officer.
- (7) A person may not take or permit his dog to take, while in violation of Subsection (1):
 - (a) protected wildlife or their parts;
 - (b) an occupied nest of protected wildlife; or
 - (c) an egg of protected wildlife.
- (8) A person is guilty of a class B misdemeanor if he or she violates any provision of Subsection (1).

IV. Season Dates And Bag And Possession Limits

R657-13-19 & 23-19-18

This section sets forth general provisions. Where a more localized and specific provision is given in V. PROVISIONS FOR SPECIFIC WATERS beginning on page 11, the more specific provision takes precedence.

A. CLOSED AREAS

- (1) All waters of state fish rearing and spawning facilities are closed to fishing.
- (2) State waterfowl management areas are closed to fishing except as posted or as listed under V. Provisions For Specific Waters.

B. SEASON DATES

The general season for taking fish and crayfish is January 1 through December 31, 2002, 24 hours each day.

C. BAG AND POSSESSION LIMITS

(1)(a) Trout, salmon and grayling that are not immediately released and are held in possession, dead or alive, are included in the person's bag and possession limit.

(b) Once a trout, salmon or grayling is held in or on a stringer, fish basket, livewell, or by any other device, a trout, salmon or grayling may not be released.

(2) A person may not fish in waters that have a specific bag or size limit while possessing fish in violation of that limit.

(3) Fish not meeting the size, bag or species provisions on specified waters shall be returned to the water immediately.

(4) A person may not take more than one bag limit in any one day or have in possession more than one bag limit of each species or species aggregate regardless of the number of days spent fishing.

(5) A person (resident or nonresident) under 14 years of age may:

(a) fish without a license and take one-half ($\frac{1}{2}$) a bag and possession limit; or

(b) purchase a license and take a full bag and possession limit.

(6) The following bag and possession limits apply statewide, except as provided in Section V. PROVISIONS FOR SPECIFIC WATERS and Section III.B.4.

UNDERWATER SPEARFISHING:

(a) Bonneville cisco	30 fish
(b) *Bluegill and green sunfish in the aggregate	50 fish
(c) Bullhead	24 fish
(d) *Channel catfish	8 fish
(e) *Crappie	50 fish
(f) Crayfish	No Limit
(g) *Largemouth and smallmouth bass in the aggregate	6 fish
(h) Nongame species (except PROHIBITED SPECIES, page 8)	No Limit
(i) *Northern pike	6 fish
(j) *Tiger muskellunge (hybrid)	1 fish over 40 inches
(k) Sacramento perch	10 fish
(l) Striped bass	No Limit
(m) *Trout, including salmon, grayling and hybrids in the aggregate, except no more than two shall be lake trout/mackinaw	4 fish
(n) *Walleye	6 fish
(o) *Whitefish	10 fish
(p) White bass	No Limit
(q) Wiper (hybrid white bass x striped bass)	6 fish
(r) *Yellow perch	20 fish

*On some waters, specific bag or size restrictions apply. See Section V. PROVISIONS FOR SPECIFIC WATERS, for variations.

V. Provisions For Specific Waters

R657-13-20

(1) The provisions set forth in this section take precedence over general provisions. Seasons, bag limits and other restrictions stated herein apply only during the times and waters listed.

(2) General provisions apply to all waters NOT listed in this section.

(3) Bag and Possession Limits, IV.C., apply to the catch and harvest of fish not identified in the specific exceptions for the following waters.

The Following Waters Have Specific Exceptions to The General Provisions:

AMERICAN FORK CREEK (Utah County) (east from Utah Lake to I-15)

- CLOSED March 1 through 6 a.m. May 1.

ASHLEY CREEK (Uintah County) (Steinaker (Thornburg) diversion to the water treatment plant near the mouth of Ashley Gorge)

- ARTIFICIAL FLIES AND LURES ONLY.

- Trout limit 2.

ASPEN-MIRROR LAKE (Kane County)

- CLOSED January 1 through April 21.
- Fishing from a boat or a float tube is unlawful.

BADGER HOLLOW (Wasatch County) (See Strawberry Reservoir Tributaries.)

BARNEY LAKE (Piute County)

- ARTIFICIAL FLIES AND LURES ONLY
- Trout limit 2

BEAR LAKE (Rich County)

- See Interstate Waters for license requirements.
- Trout limit 2.
- Cutthroat trout and trout with cutthroat markings with all fins intact must be immediately released. Only cutthroat trout that have had one or more healed fins clipped may be kept.
- Cisco may be taken with a hand-held dipnet. Net opening may not exceed 18 inches in any dimension. When dipnetting through the ice, the size of the hole is unrestricted.
- When ice fishing for fish other than cisco, the size of the hole may not exceed 18 inches
- Anglers may keep foul hooked Bonneville cisco that are taken through normal, legal fishing activities.
- A person may not use or possess hooks, single or multipoint, larger than 9/16 inch at the shortest point, between the shank and the point.
- A person may not possess a multipoint hook with a weight permanently or rigidly attached directly to the shank; or a weight suspended below any hook unless the hook is on an un-weighted dropper line that is at least three inches long.

Big Spring Creek from Lamborn Diversion (approximately 500 yards below SR-30) and that area extending from its mouth into the lake 2,000 feet, or as buoyed.

- CLOSED April 15 through 6 a.m. the second Saturday of July (July 13).

Big Spring Creek from Lamborn Diversion (approximately 500 yards below SR-30) downstream to Bear Lake.

- CATCH AND RELEASE ONLY AND ARTIFICIAL FLIES AND LURES ONLY (January 1 through April 14 and from 6 a.m. the second Saturday of July (July 13) through December 31). All fish caught must be immediately released.

- CLOSED to the possession of cutthroat trout or trout with cutthroat markings.
- ARTIFICIAL FLIES AND LURES ONLY.

UPPER KENT'S LAKE INFLOW (Beaver County) (inflow, approximately 900 feet, from the mouth up to the waterfall)

- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 13).

UTAH LAKE (Utah County)

- Geneva Bubble-up. Closed to fishing between 7 p.m. and 7 a.m. January 1 through 7 a.m. the last Saturday of April (April 27) in the area starting from the southwest corner of the Linden Marina Dike, south to an intersection with a line running west from the south dike of the Geneva Pond Dike, as posted.
- Walleye limit 6; but only 1 over 20 inches
- Largemouth and smallmouth bass limit 6. All largemouth and smallmouth bass over 12 inches must be immediately released.

UTAH LAKE TRIBUTARIES WEST OF I-15 (Utah County) (Including but not limited to: American Fork Creek, Bear Creek, Dry Creek, Hobbie Creek, Provo River, Spanish Fork River, Spring Creek and Spring Run Creek)

- CLOSED March 1 through 6 a.m. May 1.

WEBER RIVER (Summit County) (From the first I-80 bridge upstream from Echo Reservoir (near Exit 164) upstream to I-80 bridge near Wanship (near Exit 156)).

- ARTIFICIAL FLIES AND LURES ONLY
- Trout limit 2

WELLSVILLE RESERVOIR (Cache County)

- CLOSED January 1 through 6 a.m. May 25.

WEST CROSS CANYON POND (San Juan County)

- CLOSED to the possession of largemouth bass.

WEST FORK DUCHESNE RIVER (from confluence with North Fork to headwaters including Wolf Creek) (Duchesne and Wasatch counties)

- ARTIFICIAL FLIES AND LURES ONLY.
- Only 2 trout may be cutthroat trout or trout with cutthroat markings.

- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 13).

WHEELER CREEK (Weber County)

- CLOSED for approximately 1/4 mile from SR-39 to confluence with Ogden River.

WHITE RIVER (Uintah County)

- Channel catfish limit 24

WHITNEY RESERVOIR TRIBUTARIES (Summit County)

- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 13).

WILLARD BAY RESERVOIR (Box Elder County)

- Possession of gizzard shad, dead or alive, is unlawful.
- Wiper (hybrid white bass x striped bass) limit 6
- Crappie limit 10
- Walleye limit 6; but only 1 over 20 inches

WILLARD BAY RESERVOIR INLET CHANNEL (Box Elder County) (From the buoyed start of the channel near the South Marina boat ramp up the channel to the second set of baffles. This does not include the South Marina proper or the normal boating channel out of the South Marina into the reservoir.)

- CLOSED March 1 through 6 a.m. on the last Saturday of April (April 27).
- Possession of gizzard shad, dead or alive, is unlawful.
- Crappie limit 10
- Walleye limit 6; but only 1 over 20 inches

WILLOW PARK POND (Salt Lake County, Murray City)

- CLOSED to fishing January 1 through 6 a.m. June 1.
- Open to fishing only when the park is open to the public.
- CLOSED to fishing on the ice.

WOLF CREEK (Duchesne and Wasatch counties)

- ARTIFICIAL FLIES AND LURES ONLY.
- Only 2 trout may be cutthroat trout or trout with cutthroat markings.
- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 13).

YUBA RESERVOIR (SEVIER BRIDGE RESERVOIR) (Juab and Sanpete counties)

- Yellow perch limit 10. All yellow perch caught must be kept from January 1 through April 30.
- Walleye limit 6; but only 1 over 20 inches.

WATERCRAFT RESTRICTIONS

Fishing from boats and float tubes is prohibited on the following waters:

1. Aspen-Mirror Lake (Kane County)
2. Duck Creek Springs Lake (Kane County)
3. Holmes Creek Reservoir
4. Pine Valley Reservoir (Washington County)
5. Settlement Canyon Reservoir (Tooele County)

Fishing from a boat with a motor of any kind is PROHIBITED on the following waters:

1. Anderson Meadow Reservoir (Beaver County)
2. Barney Lake (Monroe Mountain, Sevier County)
3. Bonnie Lake (Duchesne River drainage)
4. Boulder Mountain Lakes (Wayne and Garfield counties) (North Boulder Slope, East Boulder Slope, South Boulder Top, Griffin Top,

4. Ken's Lake (San Juan County)

Fishing from boats is prohibited but fishing from float tubes is allowed on the following waters:

1. Blanding Reservoirs #3 and #4 (San Juan County)

HELP STOP ILLEGAL FISH INTRODUCTIONS

- Illegal fish stocking is costly to both you and the fisheries resources in Utah.
- Illegal fish stocking can upset the balance in fisheries, increase competition between species, reduce growth and reduce survival of desirable fish.
- Illegal stocking can mean the loss, maybe permanently, of valuable fisheries.
- Illegal stocking can introduce disease, like Whirling Disease, that can permanently affect fisheries.
- Illegal stocking has cost the Utah Division of Wildlife Resources and you, the license buyer, millions of dollars in rotenone treatments to remove illegally stocked fish that were unwanted and detrimental to an existing fishery.
- Moving any live fish or stocking them into the wild is illegal!

Report violations:

Highlights from Utah's Boating Laws and Rules

WHAT IS CONSIDERED A BOAT? 73-18-2(14)

According to the Utah Boating Act, a vessel (boat) is defined as every type of watercraft, other than a seaplane on the water, used or capable of being used as a means of transportation on water. Float tubes, "kick" boats, canoes, and inflatable rafts are considered boats.

WHICH VESSELS ARE REQUIRED TO BE REGISTERED AND NUMBERED? 73-18-6(1) & 73-18-7(1)

Any boat equipped with a motor, whether fuel or electric powered, is required to be numbered and registered in Utah. The assigned bow number must be painted or permanently attached to each side of the forward half of the vessel, be vertical block characters at least three inches in height reading from left to right, and must contrast with the background color of the hull and be distinctly visible and legible from a distance. Inflatable vessels may place the bow numbers on a backing plate which is attached to the boat and displayed as described above.

Properly registered boats owned by residents of another state may be used in Utah for 14 calendar days without being registered in Utah. Boats owned by Utah residents, but registered out-of-state must also be registered in Utah if they are used on Utah waters. The registration card must be on board the boat and available for inspection whenever the boat is in operation.

WHAT IS THE MINIMUM AGE FOR A MOTORBOAT OPERATOR? 73-18-15.2

A person must be at least 16 years of age to operate a boat equipped with a motor (except for Personal Watercraft). A person under age 16 may operate a motorboat if a person 18 years of age or older is on board the boat.

WHAT SAFETY EQUIPMENT IS REQUIRED TO BE ON BOARD A BOAT?

Personal Flotation Devices (PFDs or life jackets): 73-18-8(1)(a), R651-215-11, R651-215-12 & 73-18-8(1)(e)

You must carry at least one properly fitted U.S. Coast Guard approved type I, II, III or V (if approved on the label for the specific activity) PFD for each person on board the boat.

Every person 12 years of age or younger must wear a U.S. Coast Guard approved PFD whenever they are on a boat, except when they are inside the cabin area of a boat 19 feet or more in length.

U.S. Coast Guard approved inflatable PFDs may not be used on rivers or by persons 12 years of age or younger. Boats 16 feet and longer must also carry at least one U.S. Coast Guard approved type IV (throwable) PFD.

When on any river in Utah, each person on board a boat must wear a U.S. Coast Guard approved PFD. PFDs may be loosened or removed by persons 13 years of age or older when they are on designated flat water river sections. River sections currently designated as flat water include:

On the Green River:

- From Red Creek Camp below Red Creek Rapids to the Indian Crossing Boat Ramp;

- From 100 yards below Taylor Flats Bridge to the Utah/Colorado state line in Browns Park;
- Within Dinosaur National Monument, from the mouth of Whirlpool Canyon to the head of Split Mountain Gorge;
- From the mouth of Split Mountain to Jack Creek in Desolation Canyon; and,
- From the Green River Diversion Dam below Gray Canyon to the confluence with the Colorado River.

On the Colorado River:

- From the Utah/Colorado state line to the Westwater Ranger Station;
- From Big Hole Canyon in Westwater Canyon to Onion Creek;
- From Drinks Canyon, mile 70, to the confluence with the Green River; and,
- After the last active rapid in Cataract Canyon.

On the San Juan River:

- After the last active rapid, prior to Lake Powell.
- U.S. Coast Guard approved inflatable PFDs may not be used on rivers or by persons 12 years of age or younger.
- Boats 16 feet and longer must also carry at least one U.S. Coast Guard approved type IV (throwable) PFD.

FIRE EXTINGUISHERS: R651-217

All motorboats, unless exempt, must carry a U.S. Coast Guard approved Fire extinguisher. Outboard motorboats, of open-construction, less than 26 feet in length, without permanently installed fuel tanks or enclosed compartments are not required to carry fire extinguishers, however, it is recommended to carry one on board.

NAVIGATION LIGHTS: 73-18-8(2) & R651-216

All motorboats must use appropriate navigation lights while on Utah waters between sunset and sunrise. Manually propelled boats may use a white light, ready at hand, which can be displayed to prevent a collision with another boat.

WHISTLE OR HORN: R651-219-1

All boats 16 feet or longer in length must have a horn or whistle capable of producing a four to six second blast of sound. It is recommended that boats under 16 feet in length also carry a horn or whistle.

BAILING DEVICE: R651-219-2

All boats not of a self-bailing design must have a bail bucket or mechanical means for pumping the bilge.

SPARE PROPULSION: R651-219-3

Boats less than 21 feet in length must have on board at least one spare motor, paddle, or oar capable of maneuvering the boat.

OTHER EQUIPMENT RECOMMENDED TO BE ON BOARD:

Flashlight, first aid kit, compass, boarding ladder, tool kit, extra line, spare spark plugs, spare bilge plug, extra propeller, anchor, U.S. Coast Guard approved visual distress signal, etc.

IS THERE A "RIGHT OF WAY" IN THE WATER?

R651-225-1

Manually powered vessels usually have the "right of way" over motorboats. Motorboats should stay clear of manually powered vessels and should not create a wake that may cause them trouble. Manually powered vessels must yield the "right of way" when overtaking (passing) motorboats and when a motorboat is at anchor.

In overtaking and passing situations, the boat being passed has the right of way, and the passing boat is required to stay clear. When two boats are crossing paths, the boat on the left must slow down and allow the other boat to pass. When meeting another boat head-on, stay to the right. In narrow channels, boats underway must stay to the right of the middle of the channel. On rivers, boats traveling downstream usually have the "right of way" over boats travelling upstream.

IS THERE A SPEED LIMIT ON THE WATER?

R651-225-2

A wakeless (idle) speed is required within 150 feet of another vessel, a person in or floating on the water, a water skier (except one you are towing), a shore fisherman, a launching ramp, a dock, or a designated swimming area.

WHAT IS WAKELESS SPEED?

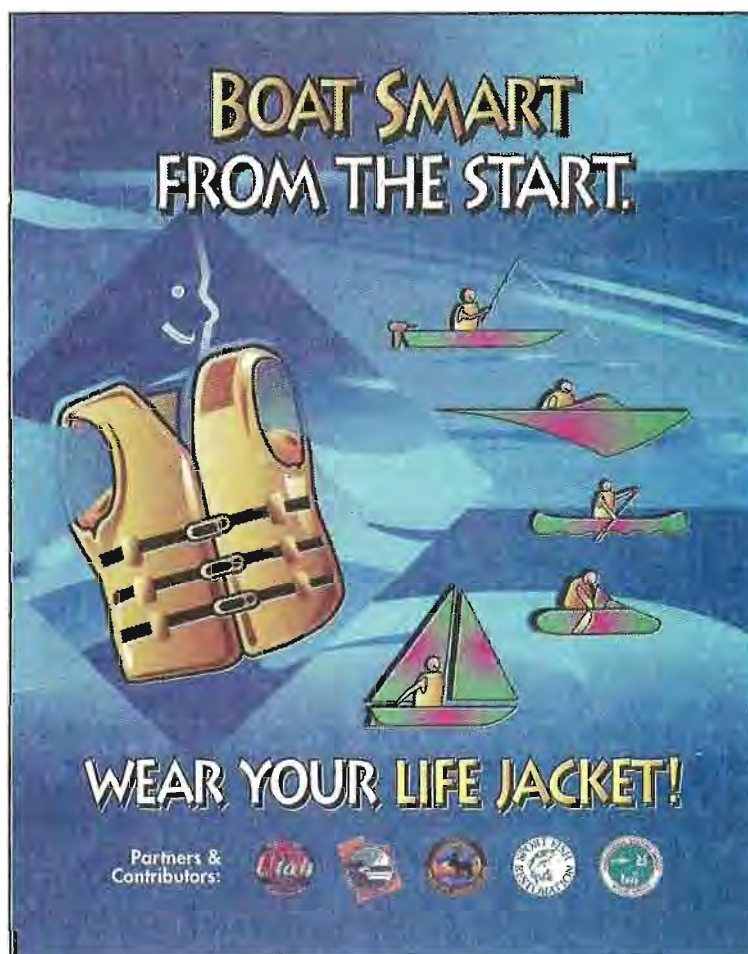

73-18-2(15)

Wakeless (idle) speed is an operating speed at which the vessel does not create or make a wake or white water trailing the vessel. This speed is not to exceed 5 mph.

DO YOU NEED MORE BOATING INFORMATION?

Contact Utah State Parks and Recreation for a copy of the brochure Highlights of Utah's Boating Laws and Rules, additional boating information, a home study boating safety course, or other boating safety classes at:

Salt Lake City, Utah 84114-6001
801-538-7220
801-538-7458 (TTY)
<http://parks.state.ut.us>

What You Can Do to Reduce the Spread of Whirling Disease

Thoroughly clean mud from all of your equipment (e.g. waders, boots, boat, boat trailer, anchors, etc.) before you go to another water to fish. This applies to moving above barriers and dams on the same water as well as going between drainages.

Do not clean fish from one stream reach or lake in another body of water or different area of the stream. Whirling disease spores from infected fish could be released into new areas this way. Adult fish that were infected with whirling disease after they had reached 5 to 6 inches may not show any head or body deformities indicating they are infected with whirling disease. If you clean your fish in the field, do it where you catch the fish. (Remember you have to leave enough skin or the head for species identification, and if you are in or going to an area with length limits, make sure you leave the head and tail on so officers can determine that the fish was legal.)

Don't transport live fish; it is illegal. Live fish should never be moved from one water to another. Nor should they be moved upstream in the same drainage. A disease may be confined to the lower reach of a stream below a diversion or dam. By putting fish above the obstruction, you could move the disease into a new area.

If you observe fish stocking in public waters from a truck that is not marked as a Division of Wildlife Resources vehicle, contact your local conservation officer directly or call the poaching hotline at 1-800-662-3337 as soon as possible. If you observe several fish with possible whirling disease symptoms (e.g. deformed head or spine, black tail or swimming in a whirling manner) call a Division of Wildlife Resources office.

AQUATIC NUISANCE SPECIES IN UTAH

What are Aquatic Nuisance Species?

They are plants and animals that have become established in our natural waters that adversely affect the recreational, domestic or commercial values of the water.

Some species are especially tenacious and aggressive organisms that totally displace native organisms in an ecosystem. They also are especially hardy and often easily transferred from one body of water to another on boat trailers, muddy boots, vehicles and bait buckets.

Primary Threats In Utah

Utah already has several detrimental species that need to be contained and there are many potential invaders in other parts of the country that are of major concern:

Eurasian Watermilfoil: This plant has been found in Fish Lake and Otter Creek Reservoir. It grows in dense mats which interfere with boating and fishing activities and causes an imbalance in resident fish populations by harboring prey fish. It can regenerate from plant fragments that are transferred to new waters on boat trailers and in the live wells or bilges of boats.

Purple Loosestrife: This marshland plant with its colorful purple flowers develops into dense stands which displace other marsh plants that are important to sustaining a diverse marsh ecosystem. It is already widely distributed in Utah and further spread is a serious threat to our marshlands.

Spiny Water Flea: A small nearly microscopic crustacean from Australia. It was recently found in Willard Bay. Biologists fear that it will displace native zooplankton

that are more edible to the small game fishes that rely heavily on them for food. This new arrival is very prolific and could change the food cycles in the reservoir dramatically—possibly to the detriment of the sport fisheries there.

Zebra Mussel: A miniature clam with stripes that has been introduced into the Great Lakes from Europe. It does not currently occur in Utah but is slowly moving West. The primary mode of movement is on boat hulls and in their bilges and motor cooling systems.

What Can You Do?

- Clean your boat and trailer of all plant fragments when leaving a body of water.
- Drain your bilges and live wells before leaving a water.
- Wash your boat with hot (120 degree F) water after boating on known zebra mussel infested waters.
- Never dump aquaria or water from other areas into a natural lake or stream.
- Never release fish or other aquatic organisms into lakes or streams. Even if devoid of recognizable life forms, there may be other undetectable microscopic organisms.
- Never clean fish and dump the refuse into waters from which they did not originate.

Go Fishing in the City...

Urban Fishing?.....You bet!!

The Division of Wildlife Resources has launched a new program to develop more urban fisheries—places one can walk, bike or bus to, and catch a fish. The program will focus on making safe, attractive, and convenient places available for Utah residents to enjoy fishing, the outdoors, their family and friends.

Although Utah has its share of wide open spaces, the majority of citizens live and often play in the 100-mile reach between Ogden and Provo. This makes Utah the 6th most urbanized state, and as such, it is beginning to experience problems similar to those of other large metropolitan areas. Increased urbanization often results in residents losing touch with their environment—while human impacts on water and aquatic resources continue to increase.

Urban youth, families, seniors and others often cannot afford or do not have the time to travel to the mountains to fish. By developing “home waters,” areas at which local residents have the opportunity to fish nearby, the Division of Wildlife Resources hopes to promote a quality recreational past-time for Utah residents and re-connect urban youth and others to the environment.

Increased connection to our waters results in awareness of our impact on water quality, respect for wild creatures and their homes, and a desire to protect the resource. Responsible anglers enjoy their time on the water, and their strong sense of appreciation for this resource is evident in their interactions with it.

The Urban Fishing Program is aimed at both seasoned anglers and newcomers to the sport.

Fishers who would like to learn more about places to go around the Wasatch Front can obtain a brochure that highlights currently productive urban fisheries. This document contains information about fishes and angling near major community centers in Utah, along with information on licenses and equipment. The brochure is available at regional DWR offices.

The DWR also has an educational component in place for urban children who have never fished before or haven't been able to fish as much as they'd like. Youth fishing clubs

are being formed in various communities to introduce young people to the joys of responsible sportfishing. Each club of 20-40 children will meet on local creeks and ponds once a week to learn more about angling and aquatic resources. The clubs will be led by groups of adult volunteers (or “fishing coaches”), who will introduce urban youth to the joys of responsible sportfishing.

Unlike other sport activities, everyone can participate at any skill level, either solo or in groups, and set their own pace. Fishing encourages responsible behavior towards aquatic resources, but most of all fishing is FUN!

The Urban Fishing Program works through the formation of partnerships with local governments and communities to develop urban fishing sites, and to initiate and support regular, long-term, mentored fishing outings to the public. Citizen involvement is key to the program. Public support for urban fisheries is indispensable, particularly in the early or developmental stages of building or revitalizing local waters. Communities wishing to develop or enhance local angling opportunities can voice this desire to their city council, in addition to contacting the urban fishing office.

The educational component of the Urban Fishing Program relies solely on the participation of adult volunteers from the community. The “Urban Fishing Leaders” act as aquatic resource educators on their home waters, sharing their knowledge of angling and aquatic ecology with children and other urban residents during regular club outings. Participation as an Urban Fishing Leader requires

no prior experience—just the donation of time. The program has a seminar designed to train adult volunteers in sportfish and aquatic resource education.

The DWR's new Urban Fishing Program will expand opportunities for Utah residents to interact with wildlife close to home. The program will increase the quantity and quality of urban fisheries, while providing aquatic resource education and angling instruction.

If you'd like to know more about the Urban Fishing Program, or donate your time as an Urban Fishing Leader, please call (801) 538-4774.

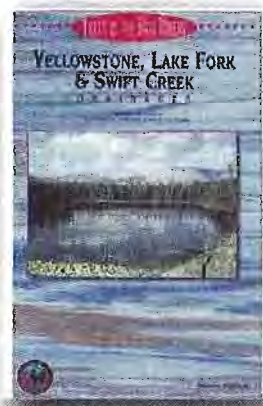

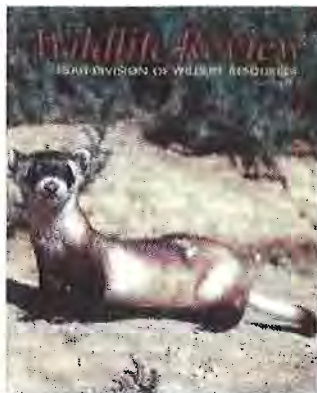

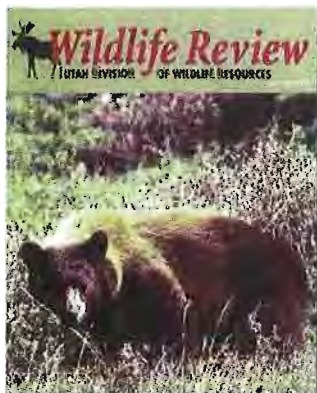

...and Catch the Excitement!

Lakes of the High Uintas

The Uinta Mountains of Northeastern Utah are the highest mountain range in Utah and are the only major range in the contiguous U.S. that lie in a east/west direction. Four of Utah's major river drainages originate in the snow-capped peaks of the High Uintas.

Of the 1,036 lakes surveyed, only 427 are currently being stocked with fish. About 150 lakes have sufficient natural reproduction so as to not require stocking, but, 460 lakes are fishless. Only the descriptions of the lakes which support fish are included in these booklets.

Fish of Utah...

Utah Native Sport Fish

Mountain whitefish: Light brown on the back and

Mountain whitefish

fins and silvery to white on the belly and sides. Snout and lower jaw are short and blunt, with a flap on each nostril.

Angling record:

1997, Wt.—4lb.-12oz; L—21-½ in. G—14 in; Roy L. Montoya, Deer Creek Reservoir.

Catch-and-Release record:

11/28/97; 23 in; Justin C. Bond; Provo River.

Bonneville whitefish and Bear Lake whitefish: These two fish are indistinguishable below 10 inches in length. The Bonneville whitefish have gray-blue spots along their sides.

These whitefish are elongate, relatively cylindrical fish. They are silvery-white along their sides grading into a charcoal gray to black on their backs.

They have small delicate mouths that make them difficult to catch. Bonneville whitefish may reach four pounds and grow to 20 inches. Both species occur only in Bear Lake—nowhere else in the world.

Angling record:

1982, Wt.—4lb.-4 oz; L—21 in. G—13-¾ in; Deon Sparks; Bear Lake.

Catch-and-Release record: 12/04/00; 19-¾ in; Scott Tolentino; Bear Lake.

Bonneville cisco:

A diminutive fish found only in Bear Lake. The Bonneville cisco is a long, slender, pearly-silver fish that rarely grows beyond seven inches. It has a dusky blue back and a brassy

Bonneville cisco

band along its flanks at spawning time. The snout is sharply pointed. It is noted for its mid-winter spawning concentrations along a rocky beach on the east side of Bear Lake in mid-January where it is dip netted in large numbers. It is a prolific fish that is an important forage for the predatory species in Bear Lake.

Cutthroat Trout:

Four sub-species evolved from the only trout native to Utah. Cutthroats are best distinguished by their crimson slash along the lower jaw. They lack the iridescent pink stripe of the rainbow trout.

The **Bonneville cutthroat trout** inhabited the Bonneville Basin and has sparsely scattered, very distinctly round spots over the upper body. They are clothed in subdued colors of silver-gray to charcoal upper body with subtle hues of pink on flanks during spawning. They, particularly the **Bear Lake cutthroat** strain, often lack the bright crimson jaw slash that, at times, may be yellow.

Bonneville cutthroat

The Colorado River cutthroat trout

evolved in the Colorado/Green River drainages and is noted for its brilliant coloration. The males, in spawning condition, have bright crimson stripes along the sides and the stomach. Spotting is usually concentrated posteriorly.

Colorado River cutthroat

Yellowstone cutthroat (not pictured) are native to Snake River drainages such as the Raft River Mountain area of northwest Utah and had been the predominant subspecies used in management programs throughout the state. It is lightly spotted with distinctly round spots concentrated toward the tail area. Today, the other native strains are becoming more extensively used in the sport-fisheries programs and are being re-introduced to many of their former habitats.

Angling record: 1930; 26lb-12oz; Mrs. E. Smith; Strawberry Reservoir.

Catch-and-Release record: 05/09/01; 26 in; Ron Colby; Strawberry Reservoir.

...Species Identification

Trout, Char & Salmon

Rainbow Trout:

Colors vary greatly—with patterns depending on habitat, size, and maturity. Stream residents and migrant

Rainbow

spawners are darker and have more intense colors than lake residents or nonspawners. Lake residents tend to be silvery. A mature rainbow is dark green to bluish on the back with silvery sides. The reddish horizontal band typifies the species. The belly may be white to silvery. Irregular black spots are usually present on the head, back and sides. Rainbow trout are heavily stocked in almost every coldwater drainage in Utah.

Angling record:

1979; Wt.—26lb-2oz; Del Cauty; Flaming Gorge Reservoir.

Catch-and-Release record:

12/30/00; 29 in; Enich Mockli; East Canyon Reservoir.

Lake Trout:

This species of char has a background color of gray-brown, overlaid with light spots that vary in intensity with age and environment. The background color covers the back, sides, and fins and serves to high-light the lighter gray spots.

Lake trout

Lake trout in large lakes are sometimes so silvery that the spots are difficult to see. Spotting is usually more intense on small fish. The caudal is deeply forked. The mouth is large and terminal with strong teeth on both jaws. They are present in Fish Lake, Bear Lake, and Flaming Gorge Reservoir.

Angling record:

1988; Wt.—51lb-8oz; L—45- $\frac{1}{2}$ in; G—31- $\frac{3}{4}$ in; Curt Bilbey; Flaming Gorge Reservoir.

Catch-and-Release record: 07/09/98; 46- $\frac{1}{2}$ in; Ray Johnson; Flaming Gorge.

Brook Trout:

Exhibiting a wide range of colors, brook trout (another char) may be olive to blue-gray on the back to white on the belly. Red spots, usually with bluish halos around them, are present on the sides. Characteristic light wavy marks on the back are a distinguishing feature. Obvious white and then

black stripe along the fore edge of each of the lower fins aids in

separating

brook

trout from most other trouts.

Caudal fin is square or lightly forked.

Angling record:

1971; Wt.—7lb-8oz; Milton Taft; Boulder Mountain.

Catch-and-Release record:

12/06/97; L—23 in; Travis L. Clark; Boulder Mountain.

Arctic grayling:

Silvery to light purple colors on the sides and bluish-white on the belly are the distinctive colors of grayling.

They are relatively slender

and are most easily distinguished by their

long, high, brilliantly colored, bright purple, sail-like dorsal fin.

Angling record:

1998; Wt.—1lb-12oz; L—17- $\frac{1}{4}$ in; G—8- $\frac{3}{4}$ in; Terry J. Fieldsted; Big Dog Lake—South Slope Uintas.

Catch-and-Release record:

07/17/99; 19 in; Russell Lee, Jr.; Uinta Mountains.

Arctic grayling

Kokanee Salmon:

Kokanee are bright silvery fish with no definitive spotting pattern. Kokanee have a dark blue back with silvery sides. As the spawning season approaches, kokanee turn from silver to orange to deep red and the male develops a

characteristic hook-jaw common to the

Pacific salmon. A

deeply forked tail also dis-

tinguishes them from rainbow, cutthroat

and brown trout. They are present in

Flaming Gorge, Porcupine and Strawberry

reservoirs.

Angling record:

1995; Wt.—6lbs; L—25 in; G—16 in; Todd Chikaraishi; Strawberry Reservoir.

Catch-and-Release record:

05/30/97; 23- $\frac{3}{4}$ in; Lisa Johnson; Flaming Gorge.

Kokanee salmon

Kokanee salmon (spawning colors)

Brown Trout:

It is a very hardy trout that competes well with other fishes and endures marginal water qualities better than most trouts. It generally has golden brown hues with yellow

Brown trout

under parts. The males during spawning are often brilliantly splashed with crimson spots circled with blue halos. Its upper body is usually profusely dappled with large, irregular, dark-chocolate spots. It is quite carnivorous and sports a stronger, sharper set of teeth than most trouts. Brown trout often grow to considerable size.

Angling record:

1977; Wt.-33lb-10oz; L-40 in; G-25 in; Robert Bringham; Flaming Gorge Reservoir.

Catch-and-Release record:

05/26/01; 32 in; Cody Mortensen; Jordanelle Reservoir.

Cool and Warm Water Fish

Walleye:

Prominent "canine" teeth distinguish this big perch from its smaller cousin, the yellow perch. Color is brassy olive buff, sometimes shading to yellowish sides and white beneath.

Walleye

Large, dark blotch at rear base of the first dorsal fin and the lower lobe of tail is white-tipped. The tail is moderately forked.

Angling record:

1991; Wt.-15lb-9oz; L-31- $\frac{3}{4}$ in; 20- $\frac{3}{4}$ in; Jeffery Tanner; Provo River.

Catch-and-Release record:

07/29/00; 30- $\frac{1}{2}$ in; Jerry A. Schlieff; Starvation Reservoir.

Yellow perch:

Yellow perch are yellowish with dark vertical bars. The caudal fin is forked, and the dorsal fin is divided.

Angling record:

1984; Wt.-2lb.-11oz; L-15- $\frac{1}{2}$ in; Ray Johnson; Yuba Reservoir.

Catch-and-Release record:

03/04/00; L-15- $\frac{1}{2}$ in; Brad Cutler; Yuba Reservoir.

Yellow perch

Striped Bass:

Coloration is bluish-black to dark grey, or olive-green above, the sides are silvery, the belly white. Striped bass have seven to nine unbroken stripes along each side. The body is somewhat streamlined. Mouth is oblique and the lower jaw longer than the upper. The dorsal fins are clearly separated. The caudal is forked.

Striped bass

Angling record:

1991; Wt.-48lb-11oz; L-45 in; G-31- $\frac{1}{4}$ in; Travis T. Jensen; Lake Powell.

Catch-and-Release record:

5/11/00; 32- $\frac{1}{2}$ in; Marty Peterson; Lake Powell.

White Bass:

Coloration on the back is grey or charcoal, green, with silvery sides and white belly. They have five to seven longitudinal stripes on each side. The body is deeper and less streamlined than the striper. They are common in Utah Lake, where they dominate all other fishes.

White bass

Angling record:

1970; Wt.-4lb-1oz; John R. Welcker; Utah Lake

Catch-and-Release record:

06/24/01; 15- $\frac{1}{2}$ in; Dave Bona; Utah Lake

Smallmouth Bass:

The snout is long and bluntly pointed, the lower jaw slightly longer than the upper jaw. Smallmouth bass vary in color with habitat, but are normally dark olive to brown on the back—with the sides lighter and yellowish and the belly yellowish.

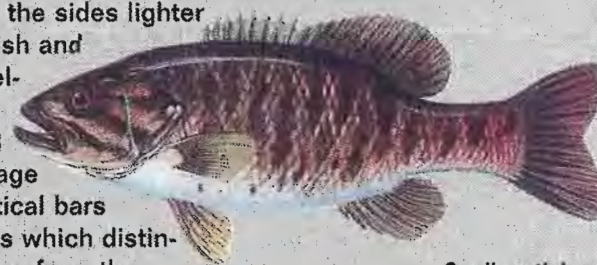

There are 8 to 15 (average 9) dark vertical bars on the sides which distinguishes them from the largemouth bass. Anterior dorsal fin has 10 spines, and is strongly joined to the soft dorsal. The anal fin has three spines.

Angling record:

1996; Wt.-7lb-6oz; L-22 in; G-16- $\frac{1}{2}$ in; Alan Iorg; Midview Reservoir (Lake Borham).

Catch-and-Release record:

04/22/01; 20- $\frac{1}{2}$ in; Enich Mockli; Deer Creek Reservoir.

Smallmouth bass

Largemouth Bass:

Head is large and long. Mouth is large and terminal with

upper jaw reaching past the center of the eye in adults. The upper parts of the body and head are greenish with a silvery or brassy luster.

Largemouth bass

The belly is white to yellow. There is an irregular dark stripe along the sides. Eyes are brown.

Angling record:

1974; Wt.-10lb-2oz; L-24- $\frac{1}{4}$ in; G-20 in; Sam Lamanna; Lake Powell.

Catch-and-Release record:

03/29/98; 27 in; Dennis Miller; Quail Lake.

Bullhead:

Adults are blackish, dark olive, or dark brown on the back. Belly is greenish-white or bright yellow. They are common in many warm waters of Utah, and abundant in Utah Lake.

Bullhead

Angling record:

1999; Wt.-3lb-4oz; L-16 in; G-13 in; Jack Gilgen; Cutler Reservoir.

Catch-and-Release record:

06/15/97; 13- $\frac{1}{2}$ in; Shawn Clement; Kaysville Ponds.

Channel Catfish:

Distinguished from other catfishes by their long anal fin and deeply forked tail. The body is pale bluish-olive above and bluish-white below. They usually have spots but lose them when older. Both dorsal and pectoral fins have strong, sharp spines. The mouth is short, wide and horizontal with chin and snout barbels.

Channel catfish

Angling record:

1978; Wt.-32lb-8oz; L-39- $\frac{3}{4}$ in; G-22 in; LeRoy Mortenson; Utah Lake.

Catch-and-Release record:

07/03/97; 33- $\frac{1}{2}$ in; Wesley Schneider; Utah Lake.

Black Crappie:

The black crappie has two closely-joined dorsal fins. Black crappie are silver-olive with numerous black or green splotches on the sides. Vertical bars, prominent in the young, are absent in adults. Sides are light, iridescent green to silvery. Belly is silvery to white. Pelvic fins are opaque with some black on the tips of the membranes, and pectoral fins are dusky and transparent. It is fairly abundant in Utah

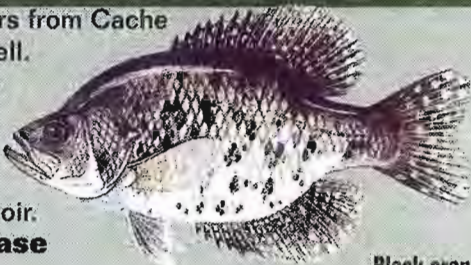

lowland warm waters from Cache Valley to Lake Powell.

Angling record:

1993; Wt.-3lb-2oz; L-17- $\frac{1}{4}$ in; G-14 in; Mike Flickinger; Quail Creek Reservoir.

Catch and Release record:

07/06/01; 15- $\frac{1}{2}$ in; Tyler Maynes; Quail Lake.

Black crappie

Green Sunfish:

Green sunfish are brassy-green or blue-green on the back, sometimes with metallic-green flecks and dusky bars on the sides. The flap over the gills is a dark color. This fish will strike at worms, bait or smaller artificial lures.

Green sunfish

Angling record:

1996; Wt.-15oz; L-9- $\frac{3}{4}$ in; G-9 in; Eddie Goitia; Lake Powell.

Catch-and-Release record:

05/29/00; 10- $\frac{1}{2}$ in; Jack Vincent; Pelican Lake.

Bluegill:

Bluegill are shorter, deep-bodied fish, whose name comes from the dark flap over the gills. The body is olive-green with vertical bars, and some blue and orange may be present. Bluegills can be caught by using worms or insects on a small hook, and will also take your small jig or fly.

Bluegill

Angling record:

1993; Wt.-2lb-7oz; L-11- $\frac{1}{4}$ in; G-14- $\frac{5}{8}$ in; Jack Rask; Mantua Reservoir.

Catch-and-Release record:

01/30/00; 11- $\frac{1}{4}$ in; Lance Egan; Pelican Lake.

Hybrid Game Fish

Wiper:

A hybrid cross between a female striped bass and male white bass. Its appearance is intermediate between the two parents. It has six to eight dark horizontal stripes over a silver-white background with a dark charcoal to black back. It has two dorsal fins, the anterior with 8-10 sharp spines. It is slightly heavier bodied than the striped bass and grows up to 12 pounds in weight and 24 inches in length. The wiper was recently introduced into Willard Bay.

Wiper

Angling record:

1998; Wt.-5lb-15oz; L-22 in; G-16 in; Floyd Egli; Willard Bay.

Catch-and-Release record:

05/15/01; 23- $\frac{1}{4}$ in; Chad Chamberlain; Willard Bay.

Continues on next page

Tiger Muskellunge:

A hybrid cross between a muskellunge and northern pike with intermediate characteristics between the two parents. It has a very elongated torpedo-like body. Its most notable feature is the grey-green vertical bars along its

sides.

It thrives where there are good numbers of perch and sunfish for food. It can be expected to grow to 50-plus inches long and weigh over 30 pounds.

Angling record:

2001; Wt.-31lb-4oz; L-48 3/4 in; G-24-3/4 in; Roger S. Klug; Pineview Reservoir.

Catch-and-Release record:

11/28/98; 53-3/4 in; Ray Johnson; Pineview Reservoir.

Tiger Trout:

Tiger Trout, a cross between a brown trout and brook trout, has a unique, dark maze-like pattern all over a brownish, gray body. The belly is yellowish orange as are the pectoral, pelvic and anal fins. The tail fin is square.

Angling record:

1997; Wt.-5lb-13oz; L-23 in; G-15 in; Scott Tanner; Floating Island Lake.

Catch-and-Release record:

10/01/00; 17-3/4 in; Lance Egan; Huntington Reservoir.

Splake:

A splake trout is the hybrid cross between lake trout and brook trout. It has a dark background with white spots. The tail fin is not as deeply forked as lake trout. The pectoral fins are easily distinguished from rainbow trout as splake have a dark background with white spots and rainbows have a lighter, silvery background with dark spots.

Angling record:

1999; Wt.-15lb-04oz; L-32-3/4 in; G-21-3/4 in; Mitchell Thomas Stewart; Fish Lake.

Catch-and-Release record:

08/12/99; 16 in; Michael Richard Wakefield, Jr; Moon Lake.

Nongame Fish

Carp:

An often undervalued sport and food fish. Deep, thick body color is gray to brassy green or yellowish green. The body is normally covered with large scales and carp have fleshy barbels on each side of the mouth. A large spine is present at the front of the dorsal (top) fin. Use worms, dough balls, or other bait and fish on the bottom. Carp will give you a good fight, grow to a large size, and can be tasty when smoked. There's no limit on how many you can keep.

Angling record:

1993; Wt.-32lb-0oz; Cougar Elfervig; Lake Powell.

Catch-and-Release record:

09/19/01; 34 in; Lance Egan; Bear River.

Utah Sucker:

This sucker is dark olive to copper, with dusky fins and a sub-terminal (on the bottom) mouth. Suckers will take small worms and other baits. Utah suckers are very good smoked or bottled.

Angling record:

1988; Wt.-6lb-6oz; L-24-1/2 in; G-13 in; William Mehn; Weber River.

Catch-and-Release record:

04/12/97; 22-3/4 in; Ray Johnson; Jordan River.

Species Not Illustrated

Utah chub

Sacramento perch

Northern pike

White sucker

Albino trout

Golden trout

Endangered Species

The June sucker occurs in Utah Lake and the Provo River. Although once abundant in Utah Lake, it is now rare. The June sucker is listed as endangered, and efforts to help recover the June sucker population are on-going. Although June suckers are members of the sucker family, they are not bottom feeders. The jaw structure of the June sucker allows the species to feed on zooplankton in the middle of the water column.

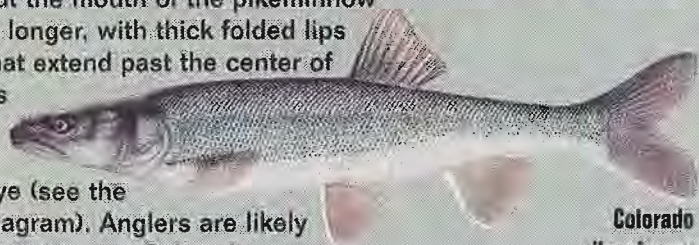

Utah fish illustrations © Lani

Colorado River endangered species illustrations © Joe Tomerelli

Colorado River Endangered Species

Colorado Pikeminnow (*Ptychocheilus lucius*) (formerly known as the Colorado squawfish):

This minnow has an olive-green and gold back with a silvery belly. Young pikeminnows may resemble the roundtail chub, but the mouth of the pikeminnow is longer, with thick folded lips that extend past the center of its

Colorado pikeminnow

eye (see the diagram). Anglers are likely to encounter Colorado pikeminnows in lengths anywhere from 10 to 30 inches.

Humpback chub (*Gila cypha*):

This minnow has a brown or olive-colored back and silver sides with a prominent, smoothly rounded hump behind its head, small eyes and a long snout that overhangs its jaw. They usually can be found 6 to 16 inches long, but can grow to be 20 inches in length.

Humpback chub

Bonytail (*Gila elegans*):

This minnow has a gray or olive-colored back, silver sides and a white belly. It has large fins and a streamlined body that becomes thin in front of the tail. Extremely rare, most living bonytails are 12 to 18 inches in length, although they can grow to lengths of 24 inches or more.

Bonytail

Razorback sucker (*Xyrauchen texanus*):

This sucker is brownish-green with a yellow to white-colored belly and has an abrupt, bony, keel-edged hump on its back just behind the head. One of the largest suckers in

North America, it can grow to weights of 13 pounds and lengths exceeding 3 feet. Anglers most likely could encounter the fish in lengths 15 to 24 inches.

Razorback sucker

Release protocol: Anglers who hook any of these fish must release them alive. Field personnel who encounter anglers with live endangered fish in their possession should release the fish. The only times endangered fish should be kept for evidence is if the fish is already dead or clearly will not survive.

Penalties for keeping endangered fish:

Federal: Up to \$100,000 in fines and up to one year in jail.

Utah: Up to \$10,000 in fines and up to five years in jail, and an additional restitution of \$1,000 per fish.

Colorado: Up to \$100,000 in fines and up to one year in jail.

Important phone numbers

To report finding any endangered fish, dead or alive, call (970) 243-2778 or (970) 245-9319. To report finding a tagged fish in Colorado, call (970) 255-6100; in Utah, call (801) 538-4762.

Colorado pikeminnow

Roundtail

Colorado pikeminnow vs. roundtail

Anglers may confuse these two fish. Here are guidelines for distinguishing them: The mouth of the pikeminnow extends past the center of its eye. The mouth of the roundtail ends in front of its eye. Also, the existence of a black triangular patch at the base of young Colorado pikeminnows' tails can be used to distinguish this fish from roundtails.

This information was provided by the Upper Colorado River Endangered Fish Recovery Program. The program is working to re-establish self-sustaining populations of endangered fish while allowing water developments to proceed. The following organizations and agencies are involved in this program: The U.S. Fish and Wildlife Service; U.S. Bureau of Reclamation; Western Area Power Administration; the states of Utah, Colorado, and Wyoming; The Nature Conservancy; Environmental Defense Fund; Colorado Water Congress; Utah Water Users Association; Wyoming Water Development Association; and Colorado River Energy Distributors Association.

UPPER COLORADO RIVER
ENDANGERED FISH
RECOVERY PROGRAM

CATCH & RELEASE FISHING

INFORMATION & TECHNIQUES

- Bait caught fish typically suffer a much higher hooking mortality than fish caught on flies and lures. At least 1 out of 3 fish caught with bait will die after release. Over 60% of deep hooked fish die. Cutting the line on deep hooked fish and not trying to remove the hook increases

survival significantly. The major cause of hooking mortality is hooking injury itself. Most fish bleeding from being hooked, will not survive.

- Generally 9 out of 10 fish caught on flies or lures will survive after release. Studies have shown that there is only a 1-2% difference in the survival of fish caught on flies compared to those caught on lures.
- When fishing deep water (deeper than 30 feet) most fish caught cannot be released with any assurance that they will survive. Bringing fish up quickly causes blood chemistry changes as well as an expansion of the

air bladder to many times its normal size, often causing it to protrude out of the fish's mouth. Keeping the fish in the water and quickly releasing it so it can get back down to deeper water helps some. Puncturing the swim bladder with a needle ("fizzing") does not improve survival. Some fish like lake trout can burp off the gases from the swim bladder when pulled up slowly. Most fish do not have this capability.

- Fish that are already stressed by warm water temperatures or low dissolved oxygen conditions cannot handle the added stress of being caught and most likely will not survive after being released. Some of Utah's low to mid-elevation reservoirs get warm during the summer. Some trout waters will have surface temperatures of 70-75 degrees. If you are catching fish in August when water temperatures are already marginal, don't plan on catching and releasing a lot of fish. Most released fish are probably not going to live to be caught another day.

HOW CAN YOU INCREASE SURVIVAL OF FISH YOU PLAN TO RELEASE?

- If you plan to release fish, fish with flies or lures. Bending down the barbs on your hooks will make the release even easier. Replacing treble hooks with single hooks also makes the release easier.
- If a fish is hooked deep, cut your line. The hook will dissolve or come loose.
- Land the fish as quickly as possible. This is less tiring for the fish. If you're fishing in deep water it can be better to slowly bring the fish up to allow time to adjust to the pressure change.
- If possible, keep the fish in the water and use a pair of forceps or needle-nosed pliers to remove the hook.
- Handle the fish as little as possible, and wet your hands or towel before handling the fish. This helps maintain the protective slime coating on the fish.

NOTICE!

During the 2000 Legislative Session, the Utah Legislature passed a law effective May 1, 2000, which prohibits certain persons from possessing firearms and dangerous weapons as defined in Utah Code Sec. 76-10-501. This includes rifles, shotguns, handguns, muzzleloaders, archery equipment, crossbows and spearguns. The restrictions imposed on possessing firearms and dangerous weapons are found in Utah Code Sec. 76-10-503 and apply to any person who:

1. has been convicted of or is under indictment for any felony offense;
2. is on probation or parole for any felony offense;
3. is on parole from a secure facility;
4. within the last seven years has been adjudicated delinquent in a juvenile proceeding for an offense which if committed by an adult would have been a felony;
5. is an unlawful user of a controlled substance as defined in Utah Code Sec. 58-37-2;
6. is in possession of a dangerous weapon and is knowingly and intentionally in unlawful possession of a Schedule I controlled substance as defined in

Utah Code Sec. 58-37-2;

7. has been found not guilty by reason of insanity for a felony offense;
8. has been found mentally incompetent to stand trial for a felony offense;
9. has been adjudicated as mentally defective as provided in the Brady Handgun Violence Prevention Act, Pub. L. No. 103-159, 107 Stat. 1536 (1993), or has been committed to a mental institution;
10. is an alien who is illegally or unlawfully in the United States;
11. has been dishonorably discharged from the armed forces; or
12. has renounced his citizenship after having been a citizen of the United States.

THE PURCHASE OR POSSESSION OF ANY LICENSE, PERMIT, TAG, OR CERTIFICATE OF REGISTRATION ISSUED BY THE UTAH DIVISION OF WILDLIFE RESOURCES DOES NOT AUTHORIZE THE HOLDER TO POSSESS OR USE A FIREARM OR DANGEROUS WEAPON IN VIOLATION OF UTAH CODE SEC. 76-10-503. HUNTING, FISHING, TRAPPING, OR TARGET SHOOTING ACTIVITIES ARE NO LONGER EXEMPT FROM APPLICATION OF THIS LAW.

Get Involved With Utah Wildlife

To provide the public a way to give input to the Division of Wildlife Resources and the Utah Wildlife Board about wildlife management in Utah, Regional Advisory Councils were established throughout the state in the mid 1990s.

There are five RACs in Utah. Each consists of 12 to 15 members selected from the specific community or region. Each RAC has the following:

- two members who represent agriculture
- two members who represent sportsmen
- two members who represent non-consumptive use
- one member who represents business interests
- one member who is a locally appointed public official
- one member from the USDA Forest Service
- one member from the Bureau of Land Management
- two members of the public-at-large, who represent the general interests of the region
- where applicable, one member who represents Native American interests

Members are appointed by the executive director of the Department of Natural Resources, in consultation with the director of the Division of Wildlife Resources. Members may serve up to two, two-year terms. Each Division regional supervisor serves as the executive secretary for the RAC in his region, just as the Division director serves as the executive secretary for the Wildlife Board.

RACs hold meetings to hear public input about Division of Wildlife Resources proposals, including recommendations, biological data and information about the effects of wildlife. The RACs also gather information from their constituents, the public and government agencies, and make recommendations to the Wildlife Board in an advisory capacity.

Each RAC is charged with hearing different viewpoints and controversial issues. They must incorporate all perspectives and come to the decision that they feel is best for all of Utah's wildlife and its citizens.

Each RAC appoints a chairperson who attends Wildlife Board meetings and presents RAC recommendations to the Wildlife Board during an open public meeting.

The public is invited to give its input and comments to the RACs. After deliberating on the issues, RAC members vote. Motions that pass are taken to the Wildlife Board.

The Wildlife Board has the final decision making authority. Board members weigh heavily on RAC recommendations when making their final decisions.

From year to year, many of the same topics are addressed during the same month. The timeline is determined by when a specific proclamation needs to be available to the public. If you want to address a specific topic (for example, fishing regulations are discussed during the August RAC meetings) you need to attend the appropriate RAC meeting.

These dates are not set in stone but are adhered to as much as possible. If you plan to attend a RAC meeting, please contact the specific Division regional office to confirm the dates.

- RAC meetings in the Northeastern Region are held at the Vernal City Offices, 447 E. Main St. in Vernal.
- The Southeastern Region, meetings are held at the John Wesley Powell Museum, 885 E. Main St. in Green River.
- The Northern, Central and Southern regions meetings are held in a different location each month.

For information on where the meetings will be held, call the Division regional office in those regions or check the Division web site:

www.wildlife.utah.gov (Public Meetings)

Public input is the cornerstone to successful decision-making for the Division through the RAC and Board process.

About the Artist

Daren Wilding,

a native of Idaho, has been an avid hunter and fisherman for more than thirty years. This passion for the outdoors, combined with his love of art provide the basis for nearly all of his work. His love for and knowledge of his subject matter provide a realism and accuracy that attract and excites not only the true outdoors man, but anyone who has marveled at the wonders of nature.

Daren, who has an associates degree in illustration from Ricks College and a B.A. from Idaho State University, is currently a high school art teacher in Ogden, Utah. In addition to teaching he has been working as a professional artist for more than eight years and has received both regional and national recognition.

In support of wildlife he also works with such organizations as the R.M.E.F., The Mule deer Foundation, Bugle magazine, F.N.A.W.S., and Ducks Unlimited.

For more information or to place an order please call or write:

"The Way Out" is that adventure I often dream about; a buck coming in, a fly on the river, a sunset at my duck blind, a mud hole, or just exploring a new trail. It's my Polaris that shows me "The Way Out" where adventure happens every time I ride."

Stephen J. -Minnesota.

Polaris ATVs may not be ridden by anyone under the age of 18, and all riders should take a safety course. For safety and training information, see your dealer or call polaris at 1-800-342-3764, ATVs can be hazardous to operate. For your safety always wear a helmet, eye protection, protective clothing, and never carry passengers. ©2002 polaris Industries, Inc.

OUR ATV CAN BEAT UP THEIR ATV.

Pound for pound, feature for feature, Arctic Cat® backs down from no one. In towing capacity and ground clearance, we're unbeatable. Plus our fully independent suspension delivers more traction in really rough spots so you won't have to back up and run the other way. Ride everything from our 250 2x4 to 500 4x4. We make 'em tougher in Arctic Cat country.

For the nearest dealer: 1-800-3-ARCTIC or www.arcticcat.com.

ARCTIC CAT
MORE TO GO ON.™

Tread Lightly!
A National Campaign

*Chart based on data available at time of printing. Chart based on comparison information between Arctic Cat 500i 4x4 Automatic, Bombardier Tracker, Honda Rubicon, Polaris Sportsman and Yamaha Grizzly. ATVs can be hazardous to operate. For your safety, always wear a helmet, eye protection, and protective clothing. Never ride on paved surfaces or public roads. Never carry passengers. Never engage in stunt driving, riding and alcohol/drugs don't mix and could cause injury or even death. Avoid excessive speeds and be particularly careful on difficult terrain. The Arctic Cat ATV may not be ridden by anyone under 16 years of age. Arctic Cat recommends that all riders take a training course, and that they read and understand their owner's manual before operation. For safety or training information in the U.S., call the ATV Safety Institute at (800) 887-2687. In Canada, see your dealer. Along with concerned conservationists everywhere, Arctic Cat urges you to "Tread Lightly" on public and private land. Preserve your future riding opportunities by showing respect for the environment, local laws, and the rights of others when you ride. ©2001 Arctic Cat Sales Inc. ®™ Trademarks of Arctic Cat Inc., Thief River Falls, MN 56701-0718 or 1-899-NASCAR is a registered trademark of the National Association for Stock Car Auto Racing, Inc. www.nascar.com.
